Return the completed form to the Financial Aid Office as soon as possible. Keep in mind that federal regulations require students to be officially admitted to a valid program of study at the school where they are requesting federal aid. Regulations also do not allow any student to receive federal aid from more than one school for the same period of enrollment (e.g., Fall 2009) and set the maximum amount a student can receive under each federal aid program during the entire 2009-2010 award year.

Note: To avoid overlaps or problems when transferring, students should always notify the current school to cancel all remaining undisbursed federal and state aid as soon as possible.
