I understand and agree to the following:

- The Veterans Administration (VA) pays for a course over the time that course officially meets.
- Non-standard sessions (classes that meet longer or shorter than the standard semesters) may affect my expected rate of pay.
- The VA only pays benefits for courses that are *required for my approved educational goal* and it is my responsibility to consult with a counselor or VSO advisor if I am unsure as to whether a course is approved.
- The VA usually *does not pay for repeat courses* and I am responsible for informing the VSO if I attempt to repeat a course.
- Federal law requires that I *report all ADDS, DROPS, or WITHDRAWALS immediately* to the VSO.
- The VA requires students to report their last date of attendance to the VSO for all **FW**, **W, NC**, or **I** grades received for a course.
- The VA requires me to maintain a 2.0 cumulative grade point average (GPA), and progress towards my educational goal by avoiding an excessive number of **FW, W**, **NC**, or **I** grades.
- Taking *any unauthorized classes* may lead to incorrect payment of benefits for which I will be responsible to repay the VA. Furthermore, the VA can withhold future payments to satisfy any debt that I owe.
- Falsification of any information may result in loss of VA benefits.
- **CHPT 33: I am personally responsible for all charges associated with attending Palomar College. If for any reason the VA denies payment to the school (or pays less than the full amount billed), I am responsible for paying all outstanding charges associated with my enrollment.**
