## MATH 197 Mathematics Topics

(.5 - 4)

Units awarded in topics courses are dependent upon the number of hours required of the student. Any combination of lecture and/or laboratory may be scheduled by the department. Refer to Class Schedule.

Prerequisite: A minimum grade of 'C' in either MATH 56 or MATH 60, or eligibility determined through the math placement process

Transfer acceptability: CSU; UC - Credit determined by UC upon review of course syllabus

Topics in Mathematics. See Class Schedule for specific topic offered. Course title will designate subject covered.

# MATH 200 Introduction to Linear Algebra

MICR 200 Fundamentals of Microbiology 2 hours lecture - 7 hours laboratory

**Microbiology Topics** 

3 hours lecture

(3)

**MICR 197** 

Prerequisite: A minimum grade of 'C' in MATH 141

Prerequisite: A minimum grade of 'C' in BIOL 102; or BIOL 200 and CHEM 104 or CHEM 100; or BIOL 100 and CHEM 104 or CHEM 100; or BIOL 105 and CHEM 104 or CHEM 100; or BIOL 101, BIOL 101L and CHEM 104 or CHEM 100; or Z00 203

C-ID MATH 250

change of basis, linear transformations, and eigen values.

Fundamentals of microbiology including medical aspects of microbiology.

Contact the Multicultural Studies Department for further information.

Introduction to Multicultural Studies

**Diverse Cultures in America Today** 

**COURSE OFFERINGS** 

Social, cultural and political awareness of diverse national and international sys-

tems of thought and multicultural groups as revealed through their social institu-

tions and cultural traditions emanating from family, community and nation - state.

Multicultural Studies (MCS)

MATH 205 Calculus With Analytic Geometry, Third Course

(4)

4 hours lecture Prerequisite: A minimum grade of 'C' in MATH 141

Transfer acceptability: CSU; UC

C-ID MATH 230

Vectors in the plane and space, three-dimensional coordinate system and graphing, vector-valued functions and differential geometry, partial differentiation, multiple integration, and vector calculus.

# MATH 206 Calculus With Differential Equations

(4)

(3)

4 hours lecture

Prerequisite: A minimum grade of 'C' in MATH 205

Transfer acceptability: CSU; UC

C-ID MATH 240

A first course in ordinary differential equations from analytic, geometric, numeric and applied perspectives (including the use of modern computational technology as appropriate). Topics include exact, separable, and linear equations; initial value and boundary-value problems; systems of first-order equations; reduction of order; undetermined coefficients; variation of parameters; series solutions; and Laplace transforms.

### MATH 245 Discrete Mathematics

3 hours lecture Note: Cross listed as AMS 110

3 hours lecture

Transfer acceptability: CSU; UC

Transfer acceptability: CSU; UC

Prerequisite: A minimum grade of 'C' in MATH 130 or MATH 140 Transfer acceptability: CSU; UC

An investigation of prevalent cultural trends in four groups of diverse ethnic and cultural backgrounds in America -- African Americans, Latinos, Chinese, and people of Jewish heritage -- since World War II. Emphasis will be placed on the literary, musical, and artistic expressions of their heritage, social conditions, struggle to become part of the main culture, and response to prejudice, racial, and religious discrimination. Selections dealing with social conditions will include such diverse issues as family life, intergenerational conflicts, and religious traditions.

The study of prepositional and predicate logic, number theory and methods of proof, elements of set theory, relations and functions, the Pigeonhole Principle, sequences, infinite sets, basic counting techniques, permutations, combinations, graphs and trees, and applications directed to the field of computer science.

#### MCS 115 Graphics and Media: A Multicultural Perspective (3) 3 hours lecture

MCS 124

3 hours lecture

**Note:** Cross listed as GC 115

See Business (BUS) Medical Assisting Clinical not offered at Palomar College Transfer acceptability: CSU; UC

An introduction to the impact of media technology on the visual arts from a multicultural perspective. Includes print, Internet, multimedia, and game design. Embraces the diversity and multicultural perspectives that reflect American demographics by presenting individual and collaborative contributions as well as strategies for designing niche marketing and advertising graphics for a multicultural society. Addresses the impact of globalization. Examines gender, ethnicity (African American, American Indian, Asian-Americans and/or Pacific Islanders, and Mexican American in particular), age, sexual orientation, and universal access for people with impairments.

MICR 110

## **COURSE OFFERINGS**

# Microbiology and Foods

(3)

2 hours lecture - 3 hours laboratory

Note: Cross listed as RS 124 **Transfer acceptability:** CSU; UC

Note: Cross listed as FCS 110 Transfer acceptability: CSU An introductory course designed for students with a general interest in the Islamic world, including its history and cultural traditions. Examines the main social, traditional and legal institutions of Islam.

**Islamic Cultures and Traditions** 

Introduction to the principles of microbiology with an emphasis on foodborne pathogens. Students will explore biological factors and controls relating to reproduction of microorganisms and the effects on public health. This course does not meet microbiology requirement for pre-health students.
