

Course Information

Students are held responsible for understanding and fulfilling all requirements presented herein, and for understanding and fulfilling any changes in those requirements which may have occurred since the printing of the catalog. Students are advised to check at the division or department levels for these changes.

Course Numbering System

Palomar College operates on a semester system. The course numbering system has meaning with regard to level and transfer. The college numbering system, effective summer 1990, is as follows:

I – 49: Remedial or college preparatory courses which do not apply toward an A.A. degree and which are not intended for transfer to another community college or four-year college or university.

50 – 99: Courses which apply toward an AA degree but which are not intended for transfer to a four-year college or university.

100 – 299: Courses which count toward an AA degree and/or are intended for transfer to a four-year college or university (refer to Transfer Identification below). Freshman-level courses are generally given numbers from 100 – 199, and sophomore-level courses are generally given numbers from 200 – 299.

Courses numbered 100 through 299 are intended as lower division transferable course work. The final decision in regard to transferability rests with the institution to which the credits are transferred.

Numbers in parentheses indicate the units granted for a course.

Transfer Identification

Courses at Palomar College which transfer to public four-year universities in California are identified at the beginning of each course description with the abbreviation CSU and/or UC.

The notation CSU means the course will transfer to the 23 campuses of the California State University system.

The notation UC means the course will transfer to the 9 campuses of the University of California system.

Lower Division Transfer Pattern (LDTP)

The Lower Division Transfer Pattern (LDTP) project is targeted for implementation for Fall 2009. The LDTP is one of several ways in which California Community College (CCC) students may prepare for study at the California State University (CSU). For CCC students who know the major they wish to pursue and at which CSU campus, the traditional major preparation articulation and transfer admission agreements are still the most valuable. However, for transfer students who are uncertain about which CSU campus they will attend, the LDTP provides a measure of flexibility and options for preparation. LDTP may provide articulation for students whose community college does not have an existing CSU articulation.

Please contact a counselor to verify that LDTP has been fully implemented prior to selecting it as your transfer option.

LDTP Courses

Below is a list of current LDTP approved courses at Palomar College. Please see a Palomar College counselor for details regarding transfer using LDTP and for more up-to-date course listings.
