279	University Studies (AA, AS)	Addition of a note regarding Laboratory courses.	<p>This program is designed for students who wish a broad knowledge of liberal arts and sciences, plus additional course work in an "Area of Emphasis." This program would be an ideal choice for students planning on transferring to the California State University (CSU) or University of California (UC), as the student may satisfy their general education requirements plus focus on transferable course work relating to baccalaureate majors at these institutions.</p> <p>Because admission and major preparation requirements vary at each transfer institution, courses used to fulfill requirements for an emphasis should be selected with the assistance of a Palomar College counselor.</p> <p>Disclaimer: California Community College courses listed on ASSIST are preapproved to meet the lower-division major prep requirements. Any other courses used by Palomar College to meet an emphasis are subject to approval by your transfer institution.</p> <p><u><i>*Laboratory courses "L" may be used toward the major when the corresponding lecture is passed with a "C" or better.</i></u></p>	6/7/2017
