

March 11, 2023
Palomar College
San Marcos Campus
10 am to 2:30 pm

**Call for
Volunteers**

We need YOU to inspire the future Cybersecurity workforce in San Diego !

We are seeking cybersecurity professionals to share their knowledge, experience, and advice with others who may want to break into the field. Volunteers will participate in speed networking with attendees in the morning, resume reviews and mock interviews in the afternoon. Lunch and professional headshot will be provided for free to both volunteers and attendees.

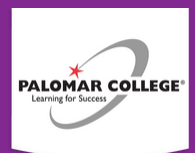

The event is open to the public for free and by doing so, we hope to not only bring awareness but a strong, gender-diverse cybersecurity workforce in our San Diego region. Your volunteering could help much needed recruitment and fill the talent-gap of the cybersecurity workforce of tomorrow.

For any questions, please email wicyssandiego@wicys.org.
