6. ACTION

- A. Technical Updates – Impacts for ESL 110 (ENG 100)** MSC Sosa, Mellos
- B. FALL 2020 Curriculum Timeline** – MSC Dixon, Mellos Add IPC deadline of September 23 deadline for a fall 2021 effective date; clarify proposal type (new, changes, reactivations)
- C. DE Approval Plan – Move to Discussion** Dixon, Ly

7. DISCUSSION

- A. DE Approval Plan** – The Chancellor’s Office asked for a plan for moving programs and courses to remote instruction along with a list of each. CO requires colleges to have a DE addendum to the COR which Palomar currently has. Spring will need similar along with PD training and other remote instructional support. New proposal type added into META to only add DE. Faculty may also propose a course review in order to add DE. Selection added to only include as DE in a state or local emergency. Want to get to a point where most of our classes are approved for at least emergency DE if needed. CO is awaiting more information for DOE. Under current guidelines, if courses are not approved for DE in Spring 2021 and we are still in remote instruction mode, they may not be taught. Information included in the DE plan to be submitted to the CO. There will be instructions and videos to assist faculty with completing the new DE page in META. There was discussion around requiring courses be taught DE. There is no requirement that a course be offered DE even if it is approved as such. There will be an option that outlines whether a course is will be able to be offered as DE anytime or only during local/statewide emergencies. Any need to submit a substantive change to ACCJC will be addressed through our accreditation office. There was discussion about validating whether a course could be taught online and the students can meet the outcomes as a part of this process. There are options to choose fully-online and partially online. If faculty believe that students may not be able to meet the outcomes, the course may very well not be DE. Again, partial DE may be an option. There was discussion about in-person testing and being clear about all course requirements (testing in person) for students. There was also discussion about remote proctoring and the logistics required for in-person testing. Faculty need to complete DE addendum for courses which need to be taught online for the summer and the fall.

B. Curriculum Goals

- 1) GE – Developed workgroup. This goal is “in progress.”
- 2) Cross-listed courses accomplished but still need to add to META
- 3) Re-evaluate timeline/process – Working on; new timeline today. “In process.”
- 4) DE – Accomplished
- 5) Requisite Enforcement – Accomplished. Write another goal around dealing with any issues enforcement has caused.
- 6) CPs to CAs – “In progress.” Will work on for fall
- 7) Combining Courses 0 “In progress.” Deans working on

8) Credit for Prior – “In progress.” Almost done. Working of compensation portion

8. **INFORMATION**

- A. **GE Workgroup Update** – Great work. Will continue and moving in the right direction to redefine or reaffirm our GE philosophy.
- B. **CSUSM Pathways Mapper** – Asked to work with CalState San Marcos to help Palomar students who want to transfer to CSUSM to improve transfer pathways between the two campuses. Can add a 4-year plan in mapper for CSUSM which includes courses to be completed at Palomar and the courses which need to be completed at CSUSM. Will work on ADTs and high-demand transfer programs first. The goal is to simplify the process for students.
- C. **ADT Periodic Review Update** – Conducted a review of 5 ADTs in Technical Review. It was streamlined. Invited faculty from the transfer degree and discussed changes that will need to be launched by October 1 to ensure we are using the correct template.
- D. **AP Equivalencies – Art and Computer Science** – These are additions to our AP chart for equivalencies.

AP Exams	Score	Palomar Equivalent
Art History	3	ART 100
Computer Science Principles	3	CSCI 112

- E. **2020/2021 GE Changes** – Will go into Effect in Fall 20. These are course changes for local, CSU and UC GE areas. The changes include new as well as deactivated courses.
