Instead, we would like to offer three focused 8-week courses: NESL 982 - Computer Skills 1 - Foundational Skills NESL 983 - Computer Skills 2 - Office Applications NESL 984 - Computer Skills 3 - The Digital Age We wanted to created shorter courses so that there are more entry points for students. Also, none of the classes require pre-requisites, so any student can take the classes at any point. The first week of each course will include a review of computer vocabulary and computer basics. In addition, we created the last course to include updated technology.	Updated coding, updated grading basis, other updates not impacting catalog/records	N/A	Tracy Fung
