

How to Use Canvas

How to Videos for Students

Palomar College
Dual Enrollment

In preparation for your Dual Enrollment class, please review the How to Use Canvas videos below. Watch the Student Orientation Tour video first; thereafter, we have videos on specific topics you may want to learn about. We have also included a list of “How Do I?” questions and answers to frequently asked questions by students using Canvas.

Remember, it is the student’s responsibility to ask for help for anything you don’t understand – be it Canvas, your class, Palomar email, etc. We are here to help, but... we don’t know you need help if you don’t ask.
