## Scaled vs. Raw

The following table outlines how the ACT converts from “raw scores” in each section to scaled scores (out of 36). Take note of the scaled scores in each section that you need to receive to achieve your goals and then work backwards to figure out the “Raw Score” equivalents. Circle the approximate Raw Score that you will be striving to achieve in each section.

<b>Scaled Score</b>	<b>English</b>	<b>Math</b>	<b>Reading</b>	<b>Science</b>
