WORKPLACE VIOLENCE INCIDENT REPORTING PROCEDURE

BP 3510 and AP 3510 prohibit retaliation against any employee who submits a report, and any incidents of retaliation shall be immediately reported to Human Resources in accordance with the policy.

EMERGENCY RESPONSE PROCEDURES

Palomar Community College District (District) has specific measures to handle actual or potential workplace violence emergencies outlined in BP 3510 and AP 3510.

The District prioritizes the safety and security of its campus community and safeguards its property and facilities. The WVPP serves as a critical framework in achieving this commitment, activated in response to various triggering factors. Complementing the WVPP is the District's Emergency Operation Plan (EOP). This plan outlines emergency preparedness protocols for any serious threat, hazard, or emergency that may arise. The Emergency Operations Plan (EOP) establishes organizational structures, delineates chains of command, and outlines policies and procedures for Campus Police, EH&S, employees, and students during emergencies. This comprehensive plan enables employees to better equip themselves to respond promptly and effectively, aiming to significantly mitigate loss and negative impacts when emergencies occur.

Despite the unpredictability of such situations, the EOP facilitates an immediate and coordinated response by

Campus Police and district employees, minimizing potential danger to the campus community. Particularly noteworthy is the Threat and Hazard-Specific Annexes section, which details goals, objectives, and courses of action for addressing various threats or hazards such as workplace violence, cyber-attacks, earthquakes, fires, or hazardous materials incidents and relevant evacuation and shelter in place protocols. These annexes serve as comprehensive guides on managing functions before, during, and after an emergency incident.

Through meticulous planning, diligent training, and swift implementation of established procedures, the Palomar Community College District remains steadfast in its commitment to ensuring the safety and well-being of all stakeholders within its campus community, including effective means to alert employees of workplace violence emergencies in accordance with the EOP.

Communications Protocol

The Communications Annex within the EOP ensures the availability and coordinated use of our communications systems for the dissemination of disaster information, exchange of information between decision-makers, and coordination of communications with local response agencies. When activated, this annex coordinates and supports emergency response/recovery telecommunications requirements, including interfacing with other agencies and outside organizations such as local, state, and federal government entities, private nonprofit organizations, and business/industry partners.

Internal Communications

Staff will be promptly notified when an incident occurs and will be kept informed as additional information becomes available and as plans for managing the situation evolve. The following practices will be utilized to disseminate information internally when appropriate:

The alert notification system will be used to activate and communicate within our emergency management system, according to the District’s EOP. It may also be utilized to activate and manage the Emergency Operations Center (EOC).

Emergency Alert Notification Devices:

- Email Notices/Alerts: District issued email account (@palomar.edu or @student.palomar.edu)
- On Campus Broadcast Alerts: Campus phones (InformaCast), Loudspeakers,
- Palomar Community College District Website
- Text Messages for Employees: www.palomar.edu/pages/hr/forms (Sign up to receive)
- Text Messages for Students: <https://my.palomar.edu> (Sign up to receive)
- Palomar Community College District on Twitter, Instagram and Facebook

Safety and Security Committee

Workplace incidents will be presented at regularly scheduled Safety and Security Committee meetings as needed. These meetings are a place to ask clarifying questions and share information regarding an incident, address new procedures and/or temporary changes. This integrated approach provides a comprehensive overview of the communication protocols within the Emergency Response Procedures, aligning with the broader goals outlined in the WVPP.
