

Hours /Units Calculations

Policy Change AA 15-26 10/02/2015

Refer to the college Catalog for course contact hours.

Schedule all classes to the maximum contact hours (catalog hours * 18)

- When using the hours calculator, schedule total hours as close to the maximum hours as possible without going under the maximum hours.

Standard formula for Credit Hour calculations

$$\frac{\text{Total Contact Hours} + \text{Total Homework Hours}}{54} = \text{Units of Credit (rounded down to nearest .5)}$$

Instructional Category	In-Class Hours	Homework Hours
Lecture <i>lecture, discussion, seminar</i>	1	2
Activity <i>activity, lab w/homework, studio, similar</i>	2	1
Laboratory <i>traditional lab, natural science lab, clinical</i>	3	0

Examples: 3 hr/week lecture $\frac{54 + 108}{54} = 3.0 \text{ Units}$	1.5 hr/wk lec + 3 hr/wk lab $\frac{(27+54) + (54)}{54} = 2.5 \text{ Units}$
