

Title: Are Guided Pathways new at the CCC's?

About: The CCC Chancellor's Office has been working towards Guided Pathways for a few years. Are you familiar with the progress that has been made and the work that has already been done? Do you know the difference between the AACC Guided Pathways Project and the California Guided Pathways Project?

How do you think Palomar can benefit from the work that has already been completed by other colleges?

BUILDING CAPACITY FOR GUIDED PATHWAYS

at California Community Colleges

California Community Colleges Guided Pathways Award Program

Designed to provide all California community colleges with the opportunity to implement Guided Pathways, this multi-year state award supports processes that help colleges integrate multiple initiatives and scale up effective practices to improve student success. Thanks to \$150 million in one-time funds, all 114 California community colleges are eligible to participate and receive funding.

AACC Pathways Project

This multi-year demonstration project is intended to help colleges design and implement Guided Pathways at scale. Three California community colleges are participating.

California Guided Pathways Project

Inspired by the AACC Pathways Project, the California Guided Pathways Project is an institute-based model that seeks to demonstrate promising and fully scaled Guided Pathways practices. Twenty California community colleges are participating.

Early Guided Pathways Adopters

Several California Community Colleges have moved forward independently to design and implement Guided Pathways.
