

Ryan Wiltse  
Designs

The background of the entire image is a repeating pattern of overlapping semi-circles or scallops. The colors are various shades of teal and green, ranging from a dark, almost blackish-teal to a bright, vibrant green. The pattern is dense and covers the entire area.

# About Me

---

I am an Interior Designer with a passion for design that stretches back to decorating my dollhouses as a child. This love was revitalized through my years of work as a Cosmetologist, where I learned to develop customized solutions for a wide variety of clients needs, challenges, and budgets. This experience also gave me a strong foundation in color theory and the psychology of color. I apply this knowledge to all of my designs, creating very intentional and carefully curated color palettes. Deeply inspired by biophilic design and sustainability, I'm drawn to the warmth and originality of natural textures and handcrafted materials. These elements allow me to design spaces that are not only visually compelling and functional but also deeply personal. I believe a space should be an extension of the person, brand, or organization it represents reflecting their values, identity, and purpose.

# Sakura Sushi Bar

---

Inspired by cherry Blossom season, the design of Sakura Sushi Bar lends itself to the perfect date night or girls night out. The mix of wood tone, natural textures, and the use of foliage create an inviting and relaxing space.

---

# Wild Oaks Hotel

This boutique hotel lobby offers a whimsical refuge for book lovers from the hustle and bustle of the city. Floor to ceiling bookshelves and an array of foliage transport guests into this fairy tale forest. Lots of seating and a bar height table for work create the perfect environment for productivity or to relax and read a book.

18. MENOTO Free Standing Toilet Brush Holder

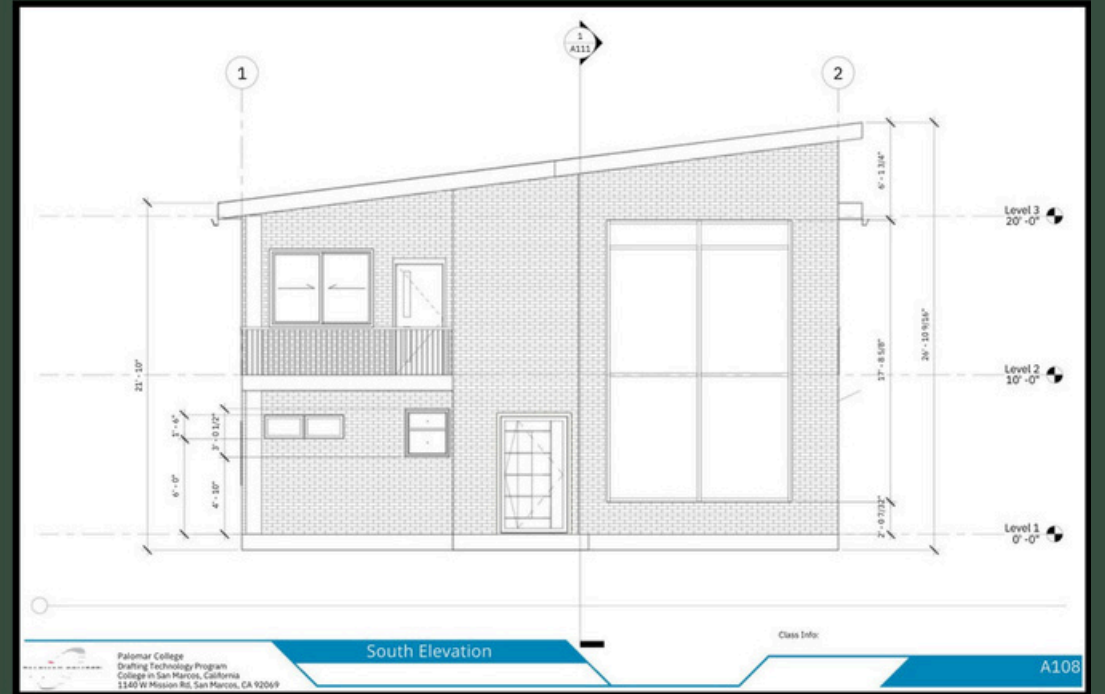

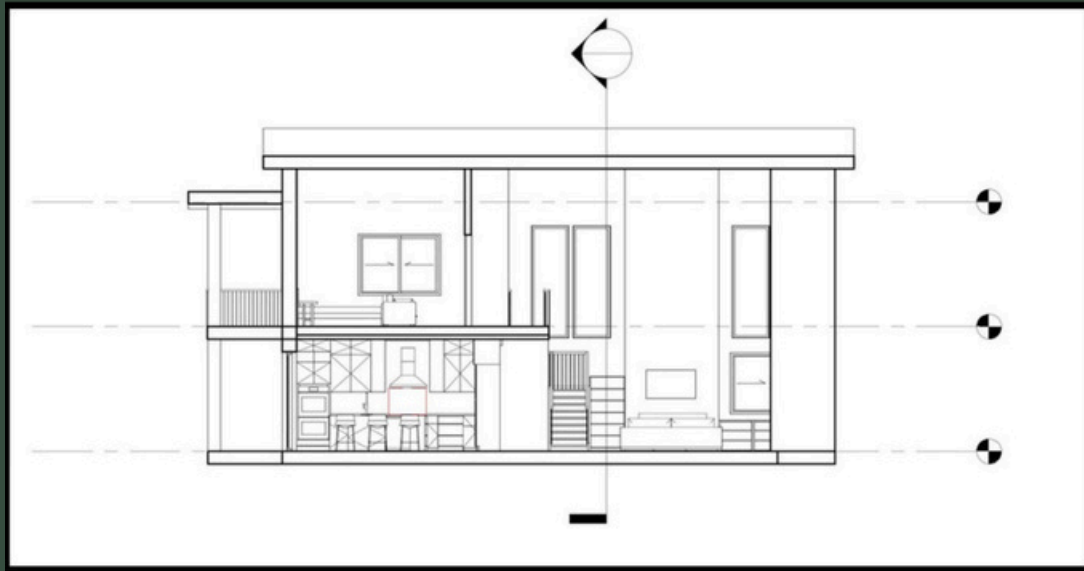

# Small Bathroom

This compact bathroom was designed to maximize storage while maintaining its full functionality. Inspired by current color palettes and material trends, the space features terrazzo flooring, green shower tile, light natural wood tones, and matte black fixtures. These elements come together to create a stylish and contemporary aesthetic that feels fresh and lively.

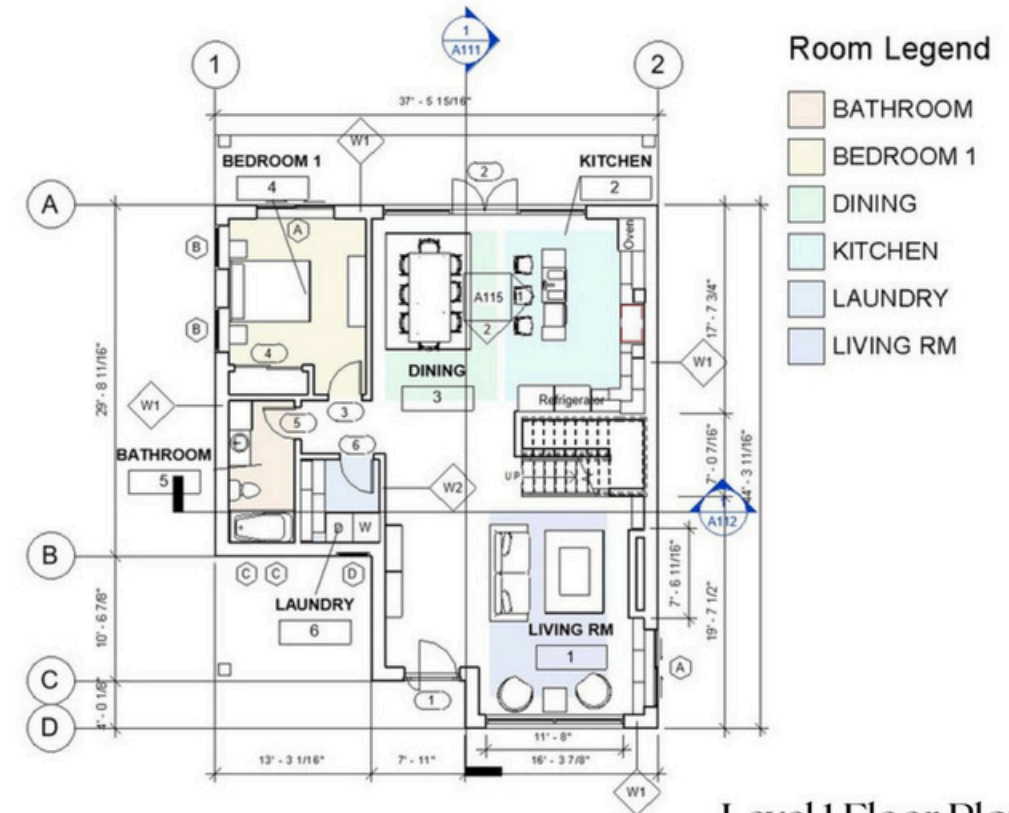

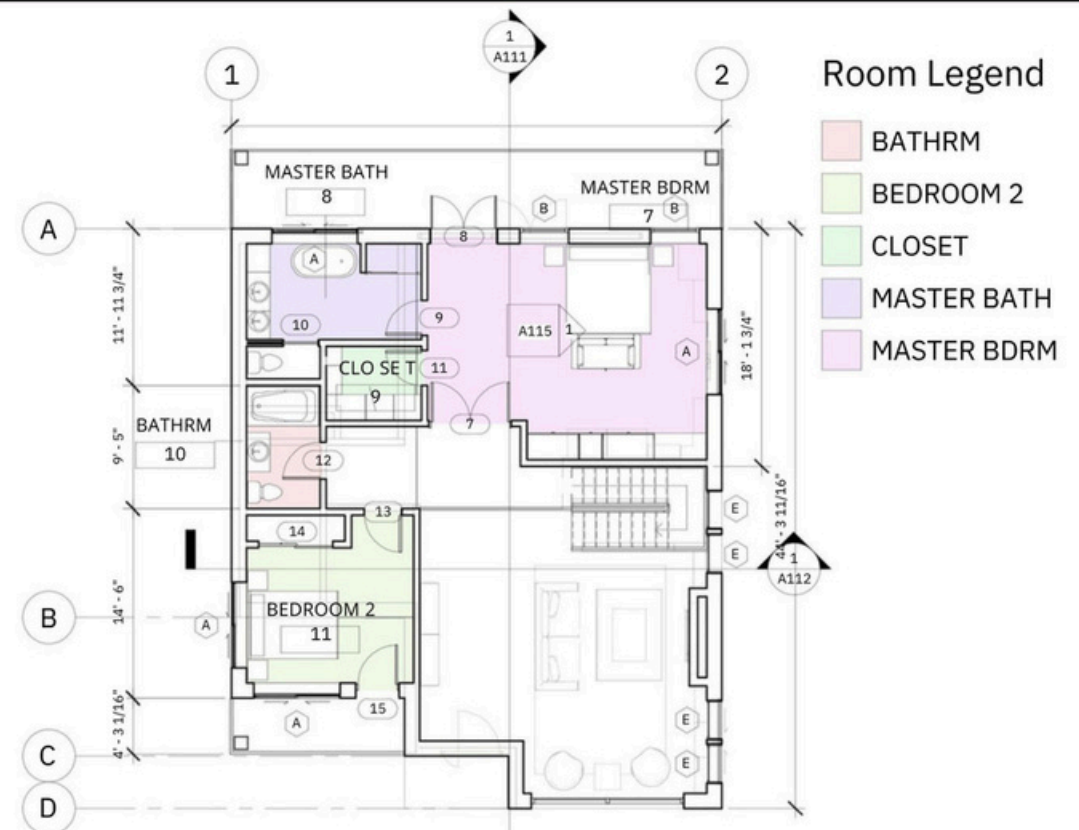

# Two Story Single Family Home

This project uses Revit to build a two story single family home. I chose a modern design for this three bedroom, three bathroom home using timeless brick and a modern color pallet to create a welcoming and warm environment.

Level 2 Floor Plan

# Seaside Pediatrics

Inspired by the San Diego coastline and the Doctors passion for ocean conservation this pediatrics office offers a calming environment for patients and their parents alike. Bringing in light, sand toned wood and numerous blues transport the clients to the beach. This calming pallet will help ease patients anxiety for a better experience.

# Helen & Gertrude Marketing Office

Helen & Gertrude is a women-led, full-service marketing agency that needed a dynamic office environment to support both client engagement and employee well-being. The design provides a diverse range of spaces, from collaborative areas and meeting rooms to quiet zones for focused individual work, ensuring flexibility and functionality. Abundant greenery and a muted color palette create an atmosphere that is both elegant and inviting, in order to foster creativity, comfort, and productivity throughout the workplace.
