

International Student Spotlight

**RICCARDO
DENTI**

I changed my major to Computer Information Systems, and transferred to Cal State San Marcos to pursue my bachelor's degree. My ultimate goal is to learn as much as I can, start my career in the tech world, and help people through what I do.

I enjoy many different kinds of food besides pizza (of course, being Italian!), I especially love Mexican food, particularly a bean and cheese burrito with guacamole.

I enjoy watching American TV shows to broaden my understanding of the culture, but I also love listening to music, playing video games, spending time with my family and my dog, and having meaningful conversations with friends, which always teach me something new.

As an international student who uses a wheelchair, my advice to new and current international students is to never be afraid to ask for help. Expressing yourself in a new country can be challenging, and it's okay to ask questions—even multiple times. Don't hesitate to seek assistance when you need it.

Club Events ~Spring 2026

ISA Lunar New year event

Lunar New Year festivals mark the end of winter and the start of a new lunisolar year, beginning with the new moon. Celebrations focus on bringing good fortune and longevity through traditions like dragon dances, fireworks, and family gatherings. This 2026 ISA also hosted a fun event with games like a chopsticks challenge and bingo, along with prizes, food, and drinks.

JSA Airplane Competition

JSA had a paper plane competition. Everyone made paper airplanes to see how far they can go. We competed for distance, provided snacks and awarded prizes! Thank you to everyone who joined our first JSA paper airplane contest this semester!

Upcoming ISA Event

Join ISA for a picnic event on April 9th, Thursday. Enjoy fun games, food and drinks, and socialize. For more updates and information follow instagram page.
