

2009-2010 Instructional Program Review and Planning Supplemental Form

Please complete this form for each priority you identified in the 2008-2009 progress report (review these at <http://www.palomar.edu/irp/IPRPSupplementalReport.htm>). Please list at the end of this form the faculty and staff who participate in this report. Forward (1) a hard copy to Instructional Services and (2) email a Microsoft Word copy to idecker@palomar.edu no later than 3/05/2010.

Department Communications	Department Priority # 8	<input type="checkbox"/> No funding/resources are being requested
Program/Discipline: Cinema	Program/Discipline Priority # FOR 2010-2011: 3	

To establish a priority, use the current Program Review and Planning (PRP) document submitted Spring 2009 (posted at <http://www.palomar.edu/irp/IPRPSupplementalReport.htm>) for this program or discipline. Identify from Box #2 in the PRP a priority for the upcoming academic year or develop a priority based on the data analysis discussed in Box #2.

<p>*2. Data Analysis (restate or summarize the data analysis from the PRP): Enrollments continue to grow in the majority of sections offered in the Cinema program. We continue to focus on student retention and student success in the classroom. As well, the program strives to prepare students who transfer to universities, as many of our classes satisfy the requirement of the UC and CSU systems. While the number indicating degrees awarded may appear low, the majority of our students successfully complete courses in our program as transfer requirements and are students who gain degrees in related disciplines, i.e. Radio/TV and Graphic Communications. Out retention rates are very high and be continue to increase our student success rates.</p>					
<p>*3.a/b. Describe your goal (priority) based on data analysis from the PRP: It is a goal of the Cinema program to continue to retain our strong enrollments, to increase lower enrolled courses and to ensure student success in our courses. It is particularly important that we prepare our production students for work in the industry; to give them the experience and training to be able to get jobs. To do this, we must have production equipment that is state-of-the-art and keeps up with changing technology.</p>					
<p>Resources requested: Identify all the resources you are requesting to support the implementation of this priority. These resources would be additional funding needed beyond what is already provided to the discipline through the base resource allocation process.</p>	<p>Describe the resource(s) requested</p>	<p>Cite page(s) that provide rationale for this priority request</p>	<p>Estimated Amount of Funding Requested</p>	<p>New, one-time funding</p>	<p>New, on-going funding</p>

2009-2010 Instructional Program Review and Planning Supplemental Form

How will you evaluate whether or not you have met your goal/priority with the requested resources?
 By working on our planning documents and through assessing course and program SLOs. In addition, we will be able to assess students' ability to learn on the equipment from studying them in small groups and often one-on-one. As well, the program will check enrollments over the course of semesters, noting increases or decreases.

What evidence will you provide to reflect the impact these resources had on student learning?
 Student learning outcomes have been established that help to recognize whether these resources have been of great value to student learning. During the assessment cycle, analysis via surveys, tests scores, papers and successful completion of work are just a few means of analyzing and documenting student success. Data on student enrollments over semesters/years, those who successfully transfer to other colleges, in this case those with film programs, and students who move on to work in the television and film industries will also provide useful evidence.

6. Reflect on the progress your discipline and/or department is making on defining, implementing, and assessing course, program, GE/Institutional level SLOs. What have been the benefits and what have been the challenges?

The Cinema Program has defined all course SLOs and is currently gathering and assessing these results. We are in the review stage, looking over these results and deciding what changes or improvements need to be made to best help the students. We have found that some SLOs are more straightforward to assess and therefore it is clearer whether or not they are proving succesful for the curriculum and in student learning. Other results are more nebulous and therefore harder to assess. These we are paying most attention to and working on ways to clarify these results or perhaps ways of assessing the results. We find that the entire process has allowed us to look at our curriculum and address its strengths and weaknesses. In short, it allows us to improve ourselves and our program for all students.
