2009-2010 Instructional Program Review and Planning Supplemental Form

Please complete this form for each priority you identified in the 2008-2009 progress report (review these at <u>PRP Supplemental Report Form</u>). Please list at the end of this form the faculty and staff who participate in this report. Forward (1) a hard copy to Instructional Services and (2) email a Microsoft Word copy to <u>idecker@palomar.edu</u> no later than 3/05/2010.

To establish a priority, use the current Program Review and Planning (PRP) document submitted Spring 2009 (posted at PRP Supplemental Report Form) for this program or discipline. Identify from Box #2. In the PRP a priority for the upcoming academic year or develop a priority based on the data analysis discussed in Box #2. 2. Data Analysis (restate or summarize the data analysis from the PRP): 1. Our enrollment has continued to increase in part because individuals are coming to retrain for different occupations because of the difficult economic situation that exists at the moment. 2. Our census enrollment to all for each semester continues at well above the expectation of 85%. 3. We do not have other classrooms available that fit our physical needs based on the specificity of the subject. We continue to operate a high standard program in substandard working situations, namely the facility. 4. Our weekly student contact hours have continued to increase. 5. The full-time equivalent student is increasing. 6. We have tightened up the AA degree opportunities in the Fashion design and fashion merchandising. We now operate only the AA degree opportunities to the Fashion design and fashion merchandising. We now operate only the AA degree opportunities to the Fashion area. 3. Ab. We will have met our goal when we have a digital chalkboard in FCS-1 and FACH-2.

What evidence will you provide to reflect the impact these resources had on student learning? One of the ways we will provide evidence is through successful employment of our students in the fashion industry. Program retention and completion will go up as we continue to provide up-to-date technology.

6. Reflect on the progress your discipline and/or department is making on defining, implementing, and assessing course, program, GE/Institutional level SLOs. What have been the benefits and what have been the challenges?

All of the courses in the Fashion Area have been updated and at least one SLO has been created for each course. We continue to work on the Program SLO's. The benefits included the opportunity to update our courses and to work together as a cohesive unit to fine tune our courses and programs to meet the needs of our students so that they can be successful in our courses and in their chosen careers in these areas. The fashion faculty have met as a group and individually with the department chair on numerous occasions to complete this work. They deserve a great deal of credit for their work on this project. The biggest challenge has been the time commitment and the necessity to become very savvy on Curricunet while meeting the contant and consistent deadlines.
