<b>Department Design</b>	<b>Department Priority #</b>	<input type="checkbox"/> <b>No funding/resources are being requested</b>
<b>Program/Discipline: Fashion</b>	<b>Program/Discipline Priority # FOR 2010-2011: #4</b>	

To establish a priority, use the current Program Review and Planning (PRP) document submitted Spring 2009 (posted at [PRP Supplemental Report Form](#)) for this program or discipline. Identify from Box #2 in the PRP a priority for the upcoming academic year or develop a priority based on the data analysis discussed in Box #2.

**\*2. Data Analysis (restate or summarize the data analysis from the PRP):**  
 1. Our enrollment has continued to increase in part because individuals are coming to retrain for different occupations because of the difficult economic situation that exists at the moment; 2. Our census enrollment load for each semester continues at well above the expectation of 85%; 3. We do not have other classrooms available that fit our physical needs based on the specificity of the subject. We continue to operate a high standard program in substandard working situations, namely the facility; 4. Our weekly student contact hours have continued to increase; 5. The full-time equivalent student is increasing; 6. We have tightened up the AA degree opportunities in the Fashion Program by deactivating the entry level certificates in fashion design and fashion merchandising. We now operate only the AA degree Technical for Design, the AA degree Technical for Merchandising, and a new AA degree program in Fashion: Buying & Retail Manafement; 7. Sometimes we are amazed that we continue to attract more and more students with the substandard facility; 8. The FTEF indicates that we need to hire one more full-time faculty member in the Fashion area.

**\*3.a/b. Describe your goal (priority) based on data analysis from the PRP:**  
**We at least need new chairs in FCS-1 and FASH-1 classrooms. Our chairs are breaking down in record speed, our enrollment is up, the retention is up and frankly we do not have enough appropriate chairs for these two classrooms. We are using 3-time round hand-me-downs right now in both rooms.**

Resources requested: Identify all the resources you are requesting to support the implementation of this priority. These resources would be additional funding needed beyond what is already provided to the discipline through the base resource allocation process.	Describe the resource(s) requested	Cite page(s) that provide rationale for this priority request	Estimated Amount of Funding Requested	New, one-time funding	New, on-going funding

**What evidence will you provide to reflect the impact these resources had on student learning?**  
**The physical environment in a classroom is essential for student learning. Proper seating is the minimum requirement in a classroom that will enhance student's ability to learn the material and be able to concentrate to do required work in class.**

**6. Reflect on the progress your discipline and/or department is making on defining, implementing, and assessing course, program, GE/Institutional level SLOs. What have been the benefits and what have been the challenges?**  
**All of the courses in the Fashion Area have been updated and at least one SLO has been created for each course. We continue to work on the Program SLO's. The benefits included the opportunity to update our courses and to work together as a cohesive unit to fine tune our courses and programs to meet the needs of our students so that they can be successful in our courses and in their chosen careers in these areas. The fashion faculty have met as a group and individually with the department chair on numerous occasions to complete this work. They deserve a great deal of credit for their work on this project. The biggest challenge has been the time commitment and the necessity to become very savvy on Curricunet while meeting the constant and consistent deadlines.**
