Instructional Programs

Purpose of Institutional Review and Planning:

The institution assesses progress toward achieving stated goals and makes decisions regarding the improvement of institutional effectiveness in an on-going and systematic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. Evaluation is based on analyses of both quantitative and qualitative data (ACCJC/WASC, Standard I, B.3.)

Department: Dental Assisting

2. Reflect upon and analyze the above 3-year trend data. Briefly discuss overall observations and any areas of concern or noteworthy trends.

This data shows enrollment is decreasing in the Dental Assisting dept. but it also reflects an increase in retention and success rates.

2007-08

3. Reflecting on the 3-year trend data, describe/discuss discipline planning related to the following:

3. Reflecting on the 3-year trend data, describe/discuss discipline plant	
PLAN – 2007-08	Progress – 2008-09
All of the dental assisting courses have been revised in the past 3 years,	
and overall program requirements revised to meet changes in the	
California State Dental Practice Act, and continuing ADA (American	
Dental Association) accreditation changes. Starting in fall semester	
2008 all graduates of the DA program will receive licensure to place pit	
and fissure sealants. This should increase enrollment since the	
department has received many calls pertaining to this license.	
The Health Program Specialist has prioritized recruitment for our	
department. This has been extremely effective, and 2007 enrollment	
numbers were at the maximum allowed by accreditation. In addition, the	
enrollment for fall 2008 is at maximum capacity and applicants are now	
on a "wait list" to enroll in the dental assisting program.	
The department is pleased with retention and success rates and will	
continue to implement curriculum/teaching method changes.	
a. Class scheduling (consider enrollment trends, growth, course	
rotation, comprehensiveness, etc.)	
For the past 5 years the DA department did not have a classroom. This	
limited the ability to schedule classes at times which were most	
beneficial to students. This had a negative impact on student success	
rates.	
A classroom became available fall 2007. We expect student success	
rates to continue to increase in with these scheduling changes resolved.	
A scheduling problem currently exists since the removal of ES-9	
computer lab; there is no longer a room/lab for our practice	
management computer class.	
We also need 3 additional dental operatories to schedule for the new	
clinical courses added to the curriculum in 2008. This should be	
accomplished when the new "S" building is completed.	

4. Discuss/identify the resources necessary to successfully implement the planning described:

PLAN – 2007-08		Progress – 2008-09

Dage 1 of 5

	Budget – budget development process, one-time funds, grants, etc. We may need one time funds to furnish the new building with dental operatories and equipment	
	equipment.	
	The faculty needs to attend a yearly conference in California for dental assisting educators	
	to keep our licenses current, and to add certain methodology courses to continue teaching	
	in the state. In the past we have depended on VTEA finds to cover this travel, but it would	
	be better to have these funds in our budget since VTEA funds are not guaranteed.	
	There is also a bi-annual national conference that the program director should attend	
	focusing on accreditation standards, changes and implementation for DA programs. VTEA funds cannot cover this because it is out of state, so our budget planning process should	
	plan for this as well.	
	Facilities – schedule maintenance needs, additional classrooms/labs due to growth,	
	remodeling, etc.	
	We need a computer lab that will hold 28-30 students. There are no plans for this at this	
	time. The department is temporarily using a math computer lab, but is holds only 28	
-	students. We would like to enroll 30 students, but cannot at this time.	
	Faculty position(s) – faculty priority process and projected full-time needs for 1 – 3 years	
	None in the next 3 years.	
	Staff position(s) – changes in instructional or support needs due to program growth, new technology, etc.	
	college needs to permanently hire a Health Program Specialist position to continue our	
	gram. This is not a new position. A temporary employee working only 8 hours per week is in	
	e, which is not enough to meet the needs of the department, due to the changes in	
cur	iculum, increase in enrollment, waitlist, additional intern sites needed, and changes in	
	tract responsibilities. This position needs a minimum of 16 to 18 hours per week so	
	dents do not have to wait a week for a return phone call or e-mail. The current temporary	
	ployee is successful with these limited hours only because this particular person held this	
	ition in the past and has 15 years experience working at Palomar college. She has informed	
	department members that this is not a job for a temporary employee due to the diversity of position and the vast amount of knowledge needed for the job. It takes at least a year to	
	n the job basics and a few years to master it.	
	s position was shared with Nursing Education for many years but was deleted in 2006	
	out any permanent solution; only a promise to do so. This change left the department	
	out phone coverage for the summer, since the current person is overwhelmed with work	
	s not have time to answer the regular office phone. This position is responsible for	
	uitment, transcript evaluation, internship contracts, enrollment, orientation, website	
	agement, summer office coverage, graduation, statistical evaluation of survey tools used	
	assessment yearly accreditation reports, and many more duties. Without this position, the	
	program would cease to exist.	
Als	o, our Department Academic Assistant only works 18 hours per week 10 months a year. Our	
	A cannot meet the demands of the department.	
This	s position should be increased to a minimum of 24 to 30 hours a week, 11-12 months per	

in the summer month periodically over the position of Health Pr while being shared w It is my understandin read this on past acc Both of these positio the DA dept. for man	hs and the office summer without ogram Specialist with Nursing. ng that the DA dep creditation reports ons as well as the ny years.	is vacant. Medical Assisting Programs - 10%	
Name: Vacant	
Position #: 5300, 5246 New?: No	
Remarks: Position was Health Programs Coordinator, grade 23	
Effective: October 1, 2003	
% of position: 100% # of Mos: 11	
Sal Grade/Stp: 20/1 Salary: \$2,670.14/month	
Account(s): A-212200-344100-60910-0000000/20%	
A-212200-346400-60910-0000000/10%	
A-212200-348100-60910-0000000/70%	
The item on this agenda, June 13, was put in place because	
 The Capacity Enrollment Grant we received allowed us to up her position in Nursing to 100%. 	
 However, HR reminded us that paying 30% of Cathy's salary from the grant would adversely affect Cathy's RETIREMENT. 	
 So, we are combining the positions to reach 100% paid from Palomar College. 	
 HOWEVER, we still have the commitment to Dental Assisting and Medical Assisting. 	
Currently, we are going to pay Jan Burton on an hourly basis to help with Dental Assisting	
and we need to do the same for Medical Assisting.	
I just want to emphasize that by combining these two positions as listed does not change our	
commitment to Dental Assisting or Medical Assisting. This coming year, we will try to address a	
permanent solution to this problem.	

5. Discuss one discipline goal linked to Palomar's Strategic Plan 2009 and how it will support the success of students.

"To provide up to date technology and related technical and equipment for instructional purposes." In our discipline it is imperative that we provide students with current dental and computer related technology. We have been successful so far through the use of VTEA funds to provide this environment for our students.

6. Student Learning Outcome progress:

a.Describe a learning outcome at the course or program level and the assessment used to measure student learning of that outcome. "To prepare the dental assistant to be a safe and competent dental health care professional" Please see document assessment tools used to measure the outcome of this goal in the appendix of this document; note bolded areas of surveys that relate to this particular goal.

b.Discuss a learning outcome that is observable yet difficult to measure.

Professional behavior in the dental office. We measure this by data gathered by 2 surveys given to the local dental community while the student is interning and after becoming employed. (See survey tools in appendix)The data from these surveys are analyzied to see if program goals are met.

7. Describe a discipline accomplishment that you want to share with the college community.

It was our goal for 20007 to have state acceptance to teach a new course, "Pit and fissure Sealants" and our curriculum was approved in 2007 by COMDA (Committee on Dental Auxiliaries) the California state accrediting and licensing agency. We will offer this 2 part course starting Fall semester 2008.

8. Are there other resources (including data) that you need to complete your discipline review and planning? No

9. For programs with an external accreditation, indicate the date of the last accreditation visit and discuss recommendations and progress made on the recommendations.

December 2005, no recommendations, 2 commendations for our academic program and community relations, and 1 suggestion, to equalize DA teaching hours to be the same as the other faculty in the MNHS division.

10. Other comments, recommendations:

Please identify faculty and staff who participated in the development of the reviewer's planning:

EMPLOYER SURVEY

I. <u>About you and your practice:</u>

1. Type of practice: ______ Year graduated as a DDS: _____

2. Number of Dental Assistant(s) (DAs-only) employed: _____

3. Number of Palomar College Dental Assistant(s) (DAs-only) employed: _____

Starting Salary: \$_____ Current Salary: \$_____

4. Number of Palomar College Registered Dental Assistant(s) (RDAs only) employed: ______ Starting Salary: \$_____ Current Salary: \$_____

II. Overall assessment of Palomar College Dental Assistants

Place an "X" in the column that best describes the ability of your Palomar college dental assistant graduate(s) to perform the following functions.

(Rating Scale: 5=Excellent, 4=Good, 3=Acceptable, 2=Below Expectations, 1=Poor)

2.	Is well liked by your patients.			
3.	Exhibits professional competence, growth, and development.			
4.	Adheres to an appropriate code of ethical conduct.			
5.	Communicates well with patients and other health care providers.			
6.	Effectively helps to manage patient anxiety.			
7.	Knows and utilizes the theoretical principles of daily practice.			
8.	Utilizes aseptic techniques consistent with OSHA guidelines.			

5 4 3 2 1

9.	Effectively performs DA duties (i.e., diagnostic impression, placing elastic separators, removal of sutures, taking vital signs, application of fluoride, etc.).			
10.	Effectively performs RDA duties (i.e., performs all DA duties, sizes temporaries, places bases and liners, cements temporary crowns, etc.).			
11.	Effective abilities in written communication.			
12.	Effectively performs taking radiographs.			
13.	Effectively performs business office procedures.			

III. Specific Job Related Questions

What duties (below) do your dental assistants perform on a regular basis? (Please check all that apply.)

Chairside Procedures	Chairside Procedures (cont.)
X-ray procedures	Assist in the administration of nitrous oxide
Oral evacuation	Assist with surgical procedures
Place/remove rubber dams	Provide oral health instructions
Place/remove matrix bands	Maintain infection control
Coronal Polish	Quality control
Fluoride application	Other:
Place/remove provisional restorations	
Place bases and liners	
Fabrication/sizing of temporary crs.	Office Procedures
Temporary cement of temporary crs.	
Removal of temporary crs.	Appointment control
Removal of excess cement	Telephone management
Take alginate impressions	Computer entries
Place/remove perio. Dressing	Insurance
Size orthodontic bands	Peg-board entries
Place/remove ortho. Bands	Financial counseling
Place/remove ortho. Separators	Biling
Place/remove ortho. Ligature ties	Management duties

Circle the number corresponding with the important of formal dental assisting training in relation to other qualifications considered in making hiring decisions:

(very important) 5 4 3 2 1 (unimportant)

Circle the number corresponding with the important of having an RDA on your staff:

(very important)	5	4	3	2	1	(unimportant)
------------------	---	---	---	---	---	---------------

Circle the number corresponding to your overall satisfaction with your Palomar College employees' training and performance:

(very important) 5 4 3 2 1 (unimportant)

Would you employ another Palomar College Dental Assisting Program graduate in the future?

_____ Yes _____ No

In your opinion, what are the major strengths of the Dental Assisting training provided by Palomar College?

In your opinion, what are the major weaknesses of the Dental Assisting training provided by Palomar College?
