Department Mathematics	Department Priority # 3	<input type="checkbox"/> No funding/resources are being requested
Program/Discipline: 3		Program/Discipline Priority # FOR 2010-2011: 3

To establish a priority, use the current Program Review and Planning (PRP) document submitted Spring 2009 (posted at [PRP Supplemental Report Form](#)) for this program or discipline. Identify from Box #2 in the PRP a priority for the upcoming academic year or develop a priority based on the data analysis discussed in Box #2.

<p>*2. Data Analysis (restate or summarize the data analysis from the PRP): -The department believes that there may be a correlation between the onset of the new scheduling parameters (block scheduling) and the decrease in student success rate. - Retention rate has increased and success rate has decreased since the time that Financial Aide begun requiring students to refund aide if dropping classes. -Part time FTE is too high and doesn't follow the legal guidelines set forth by the state (and hasn't for the last 3 years). Student success is directly related to the % of Full time faculty and the instructor availability that comes from it.</p>					
<p>*3.a/b. Describe your goal (priority) based on data analysis from the PRP: We feel this will increase student accessibility, retention rate and success rate.</p>					
<p>Resources requested: Identify all the resources you are requesting to support the implementation of this priority. These resources would be additional funding needed beyond what is already provided to the discipline through the base resource allocation process.</p>	<p>Describe the resource(s) requested</p>	<p>Cite page(s) that provide rationale for this priority request</p>	<p>Estimated Amount of Funding Requested</p>	<p>New, one-time funding</p>	<p>New, on-going funding</p>
