

Palomar College – Institutional Review and Planning Instructional Programs

Purpose of Institutional Review and Planning:

The institution assesses progress toward achieving stated goals and makes decisions regarding the improvement of institutional effectiveness in an on-going and systematic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. Evaluation is based on analyses of both quantitative and qualitative data (ACCJC/WASC, Standard I, B.3.)

2. Reflect upon and analyze the above 3-year trend data. Briefly discuss overall observations and any areas of concern or noteworthy trends.

The Trades & Industry department only offers one class through the Industrial Technology discipline: IT100, Technical Mathematics. Most other disciplines in the department have this class as part of their certificates, so it doesn't reside solely in any one of these other disciplines. It therefore makes sense for IT100 to be in its own discipline of Industrial Technology.

The future plan of this discipline is not to change any. We will continue to offer this class as part the certificates for Automotive, Diesel, and Welding without much change in facilities, staff or equipment.

3. Reflecting on the 3-year trend data, describe/discuss discipline planning related to the following:

PLAN – 2007-08	Progress – 2008-09
<p>a. Curriculum, programs, certificates and degrees (consider changes due to CSU/UC transfer language updates, articulation, workforce and labor market projections, certificate or degree completions, etc.)</p>	<p>No change</p>
<p>b. Class scheduling (consider enrollment trends, growth, course rotation, comprehensiveness, etc.)</p>	<p>No change</p>

4. Discuss/identify the resources necessary to successfully implement the planning described:

PLAN – 2007-08	Progress – 2008-09
a. Equipment/Technology – block grant funds, VTEA, other resources, etc.	No change
b. Budget – budget development process, one-time funds, grants, etc.	No change
c. Facilities – schedule maintenance needs, additional classrooms/labs due to growth, remodeling, etc.	No change
d. Faculty position(s) – faculty priority process and projected full-time needs for 1 – 3 years	No change
e. Staff position(s) – changes in instructional or support needs due to program growth, new technology, etc.	No change
f. Other	

5. Discuss one discipline goal linked to Palomar's Strategic Plan 2009 and how it will support the success of students.

6. Student Learning Outcome progress:

a. Describe a learning outcome at the course or program level and the assessment used to measure student learning of that outcome.

b. Discuss a learning outcome that is observable yet difficult to measure.

7. Describe a discipline accomplishment that you want to share with the college community.

8. Are there other resources (including data) that you need to complete your discipline review and planning?

9. For programs with an external accreditation, indicate the date of the last accreditation visit and discuss recommendations and progress made on the recommendations.

10. Other comments, recommendations:
