

Program Review and Planning 2019-2020

OVERVIEW OF PROGRAM REVIEW AND PLANNING FOR INSTRUCTIONAL PROGRAMS

Program Review is about documenting the plans you have for improving student success in your program and sharing that information with the community. Through the review of and reflection on key program elements, program review and planning identifies program strengths as well as strategies necessary to improve the academic discipline, program, or service to support student success. With our new Guided Pathways plan, this review becomes even more crucial for the success of our students and college.

[We are using the Strengths, Opportunities, Aspirations, Results \(SOAR\) strategic planning technique to help us focus on our current strengths and opportunities, create a vision of future aspirations, and consider the results of this approach.](#)

PROGRAM INFORMATION

PROGRAM OUTCOMES

Begin this section by reviewing the Program Review reports for courses and programs in TracDat. All active course and program outcomes should be systematically assessed over a 3-year cycle.

- **Program** = Leads to a degree or certificate
- **Discipline** = A group of courses within a discipline

*Programs will be able to complete program completion and outcome questions.

How well do your program's learning outcomes communicate the scope and depth of the degree/certificate offered and align with employer and transfer expectations?

We just completed a rehaul of our PR certificate. We created new outcomes that align better to the courses in the new certificate. We tried to align our courses with both employer and transfer expectations. Therefore, our outcomes are better aligned to employer and transfer expectations.

Describe your program's plan for assessing program learning outcomes.

We need to create a better model for assessing our program learning outcomes because our certificate is multidisciplinary. Therefore we need other departments to share their assessment results with us. This type of model doesn't really exist at the college right now. This is something we are going to work on this year.

Our current model:

- 1) Year one - Assess SLO #1 for each course
- 2) Year two - Assess SLO #2 & #3 for each course
- 3) Year three - Assess Program outcomes

Summarize the major findings of your program outcomes assessments.

Last spring we assessed our "Ethics" program outcome to align with the assessment of the College Outcome assessment campaign focusing on ethics.

- 1) Students will critically review and assess the ethical decisions made by public relations professionals and make appropriate recommendations.

Ethics is assessed in three of the certificate classes. Assessments from all three courses were evaluated.

Over 80% of our students met the outcome.

We will assess our writing outcome in 2019-20. This will also align to the College's Outcome assessment of writing.

Depending on the degree or transfer goals of our students, they have the choice of three different GE pathways:

- [Associate Degree GE Requirements](#)
- [CSU GE Requirements](#)
- [IGETC Requirements](#)

Palomar College has identified a set of General Education/Institutional Learning Outcomes, which represent the overall set of abilities and qualities a student graduating from Palomar should possess. [Click here for a link to Palomar's GE/ILOs.](#)

PROGRAM COMPLETIONS

Student success is at the core of what we do in assisting students in achieving their goals.

The Chancellor's Office Vision for Success stresses the importance of Program Completion as a major goal for our students. In addition, transfer and career readiness are key components of Palomar College's mission statement. This year, our funding formula has also changed reflecting this emphasis, providing additional funding as a function of the number of completions.

In this section we will identify a program standard and a stretch goal (what you would like to move toward) for program completions.

The standards represent the lowest number of program completions deemed acceptable by the College.

In other words, if you were to notice a drop below the set standard, you would seek further information to examine why this occurred and strategies to increase completions.

In this section we will identify a program standard and a stretch goal (what you would like to move toward) for programs.

List the number of completions for each degree/certificate for the previous year.

AA/AS	6	15	
AA-T	6	15	
Certificate	0	0	
CPE	0	0	
Total Program Completion*	6	15	

Have your program completions Increased, decreased, or stayed the same over the last 5 years?
Increased

What factors have influenced your completion trends?

The information above includes the Communication Transfer degree and PR Certificate. The transfer degree completions have increased and the certificate completions have decreased. There were classes outside of the Communication discipline that weren't being offered so students were unable to complete the certificate. We know that the changes to the certificate will increase completions. We are doing two things to make this happen:

1) Working with CSUSM to advertise our certificate to students in its Communication program focusing on

PR. CSUSM doesn't have a specific PR sequence and our certificate coupled with its Comm. degree would be very beneficial for students interested in working in PR.

2) The new certificate will be available fully online and will be part of the completion academy. We are also trying to offer all of the classes in one year - so that students interested in completing it quickly will be able to,

The Chancellor's Office Vision for Success stresses the importance of reducing equity gaps through faster improvements of underrepresented groups.

ACCJC also requires that colleges establish institutional and program level standards in the area of success rates. These standards represent the lowest success rate deemed acceptable by the College. In other words, if you were to notice a drop below the rate, you would seek further information to examine why the drop occurred and strategies to address the rate.

In this section we will identify a course success rate standards and a stretch goal (what you would like to move toward) for programs.

COURSE INFORMATION

COURSE SUCCESS AND RETENTION

What is your program's standard for Discipline COURSE Success Rate?

70.0%

Why did you choose this standard?

We are just under 70% for most of our courses so we feel that meeting that standard would be achievable. Students in our face-to-face classes are much more likely to be successful than in our online classes. I am hoping that as we implement the OEI standards our success rates will improve.

What is your Stretch goal for COURSE success rates?

75.0%

How did you decide upon the goal?

Students taking the Comm. 100 and transferring to SDSU must receive at least a B in the course for it to be equivalent to the course at SDSU.

COURSE OUTCOMES

How have you improved course-level assessment methods since the last PRP?

We are assessing our course outcomes through Canvas and assessing more regularly (more than the required three years).

Summarize the major findings of your course outcomes assessments.

Note - we haven't completed assessments since this report was done in the spring. We are scheduled to assess in Fall 19.

One of the SLOs assessed in our Communication 100 courses this year was focused on detecting bias. This SLO is very important in our current media landscape with an abundance of "fake news". Students are taught how to detect bias in news stories and then have to analyze current news sources for possible bias.

Approximately 75% of our students met the outcome. After looking at the data we decided that we need to do more exercises and show more examples before asking students to analyze current news sources.
