

# **Program Review and Planning 2019-2020**

# OVERVIEW OF PROGRAM REVIEW AND PLANNING FOR INSTRUCTIONAL PROGRAMS

Program Review is about documenting the plans you have for improving student success in your program and sharing that information with the community. Through the review of and reflection on key program elements, program review and planning identifies program strengths as well as strategies necessary to improve the academic discipline, program, or service to support student success. With our new Guided Pathways plan, this review becomes even more crucial for the success of our students and college.

We are using the Strengths, Opportunities, Aspirations, Results (SOAR) strategic planning technique to help us focus on our current strengths and opportunities, create a vision of future aspirations, and consider the results of this approach.

# **BASIC PROGRAM INFORMATION**

Beatrice Manneh Languages and Literature

### Website address for your discipline

https://www2.palomar.edu/pages/worldlanguages/chinese/

### **Discipline Mission statement**

The mission of the World Languages Department is to provide an engaging teaching and learning environment for students to gain language proficiency in Arabic, Chinese, French, German, Italian, Japanese and Spanish. Emphasis is on the expansion of cross-cultural awareness, as well as the development of speaking, listening, reading and writing skills in the target language. Through the study of languages, students develop an awareness of the experiences of others, an understanding of their unique ways of life, and a recognition and respect for their diversity and contributions to the world. We are committed to helping our students achieve communicative competence in world languages in order to contribute as individuals and global citizens living responsibly, effectively, and creatively in an interdependent and ever-changing world.

## (click here for information on how to create a mission statement)

Does your discipline have at least one degree or certificate associated with it?

No

Are any of your programs vocational (CTE/CE)?

No

Please list the names and positions of everyone who helped to complete this document.

Kathleen Sheahan Elena Villa Fernández de Castro Adriana Guillén

## Full-time faculty (FTEF)

Part-time faculty (FTEF)

.66

### Classified & other staff positions that support this discipline

One (1) Language Lab Instructional Support Assistant supports this discipline and 6 other disciplines in the department. 100%

One (1) Department ADA supports this discipline and 6 other disciplines in the World Languages Resource Center, 100%

Currently, there is a vacant classified position "Instructional Support Asst I".

### Additional hourly staff that support this discipline and/or department

Student and short-term hourly offer general assistance in the WLRC.

One (1) Chinese-speaking student tutor approx. 5 hours per week

# PROGRAM INFORMATION PROGRAM OUTCOMES

Begin this section by reviewing the Program Review reports for courses and programs in TracDat. All active course and program outcomes should be systematically assessed over a 3-year cycle.

- **Program** = Leads to a degree or certificate
- **Discipline** = A group of courses within a discipline

Depending on the degree or transfer goals of our students, they have the choice of three different GE pathways:

- Associate Degree GE Requirements
- CSU GE Requirements
- <u>IGETC Requirements</u>

Palomar College has identified a set of General Education/Institutional Learning Outcomes, which represent the overall set of abilities and qualities a student graduating from Palomar should possess. Click here for a link to Palomar's GE/ILOs.

How do the courses in your discipline support General Education/ Institutional Learning Outcomes? In your response, please specify which GE/ILO(s) your discipline supports.

All Chinese courses meet the requirements in the Palomar Degree GE Requirements (Area C - Humanities) and the CSU GE Requirements (Area C2 - Humanities) and are specifically called out in the referenced documents. The second-year Chinese courses meet the requirements in the IGETC requirements (Area 3B - Humanities) and are specifically called out in the reference document. The Chinese instruction supports institutional areas of the Palomar GE/ILOs in the areas of Communication (written, oral and visual), Creative, Critical, and Analytical Thinking (creative thinking, teamwork and problem solving), and Community, Multicultural/Global Consciousness and Responsibility (intercultural

<sup>\*</sup>Programs will be able to complete program completion and outcome questions.

knowledge).

# Summarize the major findings from your course outcomes assessments that are related to the General Education/Institutional Learning Outcomes that your discipline supports.

The study of Humanities comprises the study of language, literature, history and philosophy and is considered by many as foundational to a well-rounded education. It develops skills in writing and critical reading/thinking, appreciation for other cultures, and a reference context for using specific knowledge in a societally beneficial manner. The Chinese courses at Palomar College open a window into a vast trove of knowledge and thought in the historical and contemporary international world. In that light, the Chinese program supports all the General Education areas in the Palomar GE/ILOs.

### **ENROLLMENT TRENDS**

Palomar College uses the WSCH/FTEF ratio as one indicator of overall efficiency in addition to the overall fill-rate for courses.

Although the college efficiency goal is 525 WSCH/FTEF and 85% fill-rate (minimal), there are many factors that affect efficiency (i.e. seat count / facilities / accreditation restrictions).

This information can be found by going to the "Program" page in the PRP Data Dashboard.

### What was your efficiency trend over the last 5 years? Was it expected?

The current efficiency for Chinese is excellent. In 2018-19, the WSCH to FTEF was very high, 693. The efficiency trend over the past 5 years has fluctuated, In previous years the number ranged from 364 to 548.

The changes in efficiency is to be expected. Because this is a small program, one semester the Chinese 201 was offered and saw enrollment below 30. One course with lower than normal enrollment causes a drop in efficiency.

It should be noted that teaching foreign languages, especially at the entry level requires a great deal of student/teacher interaction. Because of this, many 4-year institutions limit class size to 20 or fewer students so each get ample opportunity to the teacher's time. Palomar requires a minimum of 30 students per class which is detrimental to enrollment and attainment. There are other disciplines with fewer than the 35 seats per class for good reason. The World Languages classes should also be considered for fewer "seats" per class, with the professor's time and attention as the limiting factor.

#### What factors have influenced your efficiency trends?

One course with lower than normal enrollment causes a drop in efficiency because this is a small program. The Chinese 201 is not offered every year, but when it is offered the enrollment was enrollment below 30 and therefore appears as if Chinese efficiency has changed drastically. This is true of any small program. One additional course that has fewer students will shift these numbers.

Are there particular courses or programs that are not getting sufficient enrollment, are regularly cancelled due to low enrollment, or are not scheduled at this time? What is contributing to this issue? Does this level of efficiency meet the needs of the program and the district?

The Chinese 201 course is the course in this program that typically sees lower enrollment. For this reason, the course can be offered once every two years. This will meet the needs of the students and also maintain efficacy for the program. Chinese 101 is a course that is offered every semester and fills beyond the cap. This course is a popular and important offering for students.

The Chancellor's Office Vision for Success stresses the importance of reducing equity gaps through faster

improvements of underrepresented groups.

ACCJC also requires that colleges establish institutional and program level standards in the area of success rates. These standards represent the lowest success rate deemed acceptable by the College. In other words, if you were to notice a drop below the rate, you would seek further information to examine why the drop occurred and strategies to address the rate.

### Click on this link to review the course success rates (A, B, C, or Credit) for your discipline.

In this section we will identify a course success rate standards and a stretch goal (what you would like to move toward) for programs.

Course Success Rates by gender, age, ethnicity, special population, location, and modality (You can access the Student Equity Plan on the SSEC website <a href="https://www2.palomar.edu/pages/ssec/">https://www2.palomar.edu/pages/ssec/</a>)

# COURSE INFORMATION COURSE SUCCESS AND RETENTION

What is your program's standard for Discipline COURSE Success Rate? 70.0%

### Why did you choose this standard?

The department follows the Palomar College standard.

Has your overall course SUCCESS rates increased, decreased, or stayed the same over the last 5 years?

Increased

### Was this expected?

۷۵٥

### What is your Stretch goal for COURSE success rates?

75.0%

### How did you decide upon the goal?

The average course success rate for CHINESE 101, 102 and 201 in the last 5 years is 80%. However, in one year during the last five years, it was only 57% for Chinese 201. Therefore, and based on the data found on the Institutional Research and Planning page, 75% appears to be an appropriate stretch goal based on the various factors that affect course success rates.

# Have your overall course RETENTION rates increased, decreased, or stayed the same over the last 5 years?

Stayed the same

# Was this expected? Please explain.

Yes, retention rates in Chinese are high. The faculty in Chinese are excellent. In the last 5 years, they range from 90% - 95%

Are there differences in success or retention rates in the following groups? (choose all that apply)

Ethnicity

Ethnicity: Why do you think ethnicity differences exist? What do you need to help close the gap? Success rates by ethnicity are lower for Hispanic students as compared to White and Asian students. Tutoring in Chinese is one of the most effective services to improve rates of success.

Retention rates are equally high for all groups.

Are there differences in success/retention between on-campus and online courses? N/A

Do you have any best practice methods you use for online courses to share with the community? N/A

### **COURSE OUTCOMES**

#### How is course assessment coordinated across sections and over time?

We have an SLO coordinator who coordinates with the college SLO team and makes plans for the Chinese program as to when and what assessment should take place each semester according to college policy.

### How have you improved course-level assessment methods since the last PRP?

We have not been able to add a second SLO to Chinese in order to align with the other 6 languages. The reason we have not added a second SLO is that we are awaiting funds to pay Chinese part-time faculty to create SLO's for the courses. We now have one active SLO's for each Chinese course and will assess them systematically over a 3-year cycle.

### Summarize the major findings of your course outcomes assessments.

Course assessment outcomes have been high. In order to meet the needs of all students and uphold high the course outcome assessment results, students must continue to have access to tutors and resources in the World Languages Resource Center. For Chinese, this is especially important to practice reading and understanding of the language.

Reflecting on the major findings you summarized, what are some questions you still have about students' learning in your courses that you have not yet been able to address with your outcomes assessments?

Course assessment outcomes have been high, but it would help to increase the focus of classroom time on speaking and listening assignments. In a class with 35 students this is very challenging. Smaller class sizes would be an effective way to address this.

What are some improvements in your courses that have been, or can be, pursued based on the key findings from your course learning outcomes assessments?

The College should consider a reduction in seat capacity for foreign language instruction. The ratio of students to teacher plays an important role in the classroom and can help to make improvements in the courses.

# PROGRAM CURRICULUM ALIGNMENT, MAPPING, SCHEDULING, & PLANNING

The Chancellor's Office Vision for Success stresses the importance of decreasing the average number of units accumulated by CCC students earning degrees.

Palomar College's Guided Pathways plan includes clarifying paths for students by sequencing course

offerings so that they support scaffolding and timely completion. Our goal is to ensure learning through:

- The mapping and assessment of clear program outcomes that are also aligned to employer and/or transfer institution expectations.
- Engaging and applied learning experiences.
- Effective instructional practices to support students in achieving success.

How do your course outcomes help your students achieve their program outcomes?  $\ensuremath{\mathsf{N/A}}$ 

What is your departmental strategy on how you schedule your courses including the time of day you offer courses? Do you use fast track or block scheduling (putting required classes near each other) to organize required classes (Particularly to meet the needs of disproportionately impacted students)?

We offer schedules of classes that are popular for students, and we plan to offer online courses to cater to working students, high school students and students who need to take classes from home.

How do you work with other departments that require your course(s) for program completion? Students can use the Chinese courses to meet General Education and Humanities credit. Many need a foreign language as a requirement for transfer. Also, students who will earn the University Studies degree in World Languages use Chinese coursework toward earning the degree. This degree is not housed in a particular department but many of the students in World Languages are earning this degree by taking the classes offered in our department.

Does your discipline offer cross-listed courses?

Are there curriculum concerns that need to be resolved in your department? What are they? We are receiving less and less FTEF that makes it difficult to offer the classes that our students need.

How is the potential need for program/course deactivation addressed by the department? The department works tirelessly to support and maintain the Chinese program. Students want to take these classes, and there is a need to expand and offer more classes in Chinese. The demand is there, particularly in the southern part of our district, and yet there has not been much support to offer these classes.

Is your department pursuing non credit or not-for credit options at this time?

Are there areas you would like to expand?

High schools and online teaching.

Click here for information about **Noncredit** and **Community Education** 

Is your department offering online classes? Yes

How do you consider student needs when determining which classes and how many classes should be offered online versus face-to-face?

We are currently only able to offer one class, and we listen to our previous students needs and try to

schedule what students will most likely be able to take. The face-to-face Chinese 101 class is very popular. If an online class is to be offered, it would be in addition to our current offerings.

Describe other data and/or information that you have considered as part of the evaluation of your program

### CAREER AND LABOR MARKET DATA

The Chancellor's Office Vision for Success stresses the importance of increasing the percent of exiting students who report being employed in their field of study. It is important for us to consider how <u>all</u> of our programs connect to future careers.

Go to this website <a href="https://www.onetonline.org/">https://www.onetonline.org/</a> and enter your discipline in the bubble on the top right for ideas about potential occupations. Click on an example to see more detail.

# What kinds of careers are available for people who complete your programs (and/or transfer)? (Refer to link above) Are there any new or emerging careers and if so how would the new or emerging careers impact your future planning?

Teacher, translator, interpreter, tourism, international business and law, political science and philosophy, military, video game designer, art and art history, musician, architect, school counselor, software programmer, pilot or stewardess, fire fighter, medical field, paramedic, diplomat, police, aid worker .... Knowing a foreign language has become more and more important as our world is becoming "smaller" and interaction across the globe more extensive. We need to offer more foreign languages to enable our students to be successful in this global setting.

# What are the associated knowledge, skills, abilities (KSA's) needed for the occupations listed above? (click examples in the link above to get ideas)

KSA: Knowledge of vocabulary, grammar, and usage of a Foreign Language

KSA: Skill in reading, listening and speaking in a foreign Language

KSA: Ability to communicate and interact effectively with customers, employees and others on general business and everyday topics

### How does your program help students build these KSA's?

The SLO for the courses and the program specifically address the attainment of these KSA's for example the Program SLO at the intermediate level:Students will produce a brief narrative to express original ideas relating to everyday life, past experiences,

future plans or cultural observations. Students will demonstrate correct word order, tense, vocabulary and grammatical structures appropriate for the third semester level

### **Work Based Learning**

Applied and work-based learning (WBL) allows students to apply classroom content in professional settings while gaining real-word experience. WBL exists on a continuum that reflects the progress of experiences from awareness-building to training. Students often cycle back through the continuum many times throughout college and throughout their career. Faculty play a critical role in ensuring these experiences are embedded into curriculum and support learning.

# Have you incorporated work based learning (work experience, internships, and/or service learning) into your program?

No

Do you want more information about or need assistance integrating work-based learning into your

### program?

Yes

### Please list any questions and describe what you need to integrate work-based learning.

The department is already in touch with the work-based learning representatives of the college. We will look into this topic soon.

How do you engage with the community to keep them apprised of opportunities in your program? Our WL department meets with high school partners and emails them, we attend Palomar events such as Tarde de Familia and we organize our own, such as Cafe International. We attend meetings of chamber of commerce for individual languages, as well as film festivals and other events pertaining to the individual languages.

# **Program Goals**

In the previous sections, you identified opportunities for improvement. Using these opportunities, develop 3-year <u>SMART goals</u> for your department. Goals should be Specific, Measurable, Attainable, Relevant, Time-Specific. Ensure your goals align with the mission of your department and/or <u>the College's strategic plan</u>.

Please list all discipline goals for this three-year planning cycle. <u>Click here for previous PRPs and goal information</u>.

## Goals

### Goal 1

#### **Brief Description**

Hire faculty of diverse background and linguistic preparation

Is this a new or existing goal?

Existing

Ongoing

Completed

### How will you complete this goal?

The department is hired two positions: 1. Spanish, 2. French/Spanish.

### Outcome(s) expected (qualitative/quantitative)

Additional faculty will be added to improve the full time/part time ratio to bring them more inline with expectations and to improve the learning experience for students.

# How does this goal align with your department mission statement, the college strategic plan, and /or Guided Pathways?

These hires will improve the departments mission to "provide an engaging teaching and learning environment for students" by having additional full time staff to develop improved programs and provide consistency in program planning and execution. In addition it will bring the full time/part time ratio closer to the college level.

### **Expected Goal Completion Date**

5/31/2019

#### Goal 2

### **Brief Description**

Offer authentic language experiences for students

## Is this a new or existing goal?

**Goal Status** 

Existing

Ongoing

### How will you complete this goal?

Provide extra credit opportunities to students including language fair (Café International), and being made aware of available programs in the local community, other colleges, and in the media. For example, students are encouraged to attend events in the International Houses in Balboa Park. The department is also working on establishing a Study Abroad program.

### Outcome(s) expected (qualitative/quantitative)

Students will participate in the above activities to the extent they find it useful.

# How does this goal align with your department mission statement, the college strategic plan, and /or Guided Pathways?

These programs/opportunities support the department goal "Through the study of languages, students develop an awareness of the experiences of others, an understanding of their unique ways of life, and a recognition and respect for their diversity and contributions to the world."

### **Expected Goal Completion Date**

### Goal 3

### **Brief Description**

Increase awareness/inclusion of PT Faculty

### Is this a new or existing goal?

Existing

Goal Status
Ongoing

#### How will you complete this goal?

Meet individually with PT faculty with respect to department and college communications, SLOs and assessments, recruitment strategies etc.

### Outcome(s) expected (qualitative/quantitative)

PT faculty will better understand and feel included in the operation of the department. Their experiences and ideas will be brought to department meetings.

# How does this goal align with your department mission statement, the college strategic plan, and /or Guided Pathways?

The department mission states "We are committed to helping our students achieve communicative competence in world languages in order to contribute as individuals and global citizens living responsibly, effectively, and creatively in an interdependent and ever-changing world." This goal of inclusion in department operations for PT faculty will support this mission directly.

### **Expected Goal Completion Date**

5/22/2020

### Goal 4

### **Brief Description**

Hiring and maintaining Chinese tutors in the WLRC

Is this a new or existing goal?

Goal Status
Ongoing

Existing

How will you complete this goal?

# Hire, train and support one PT Chinese tutor. Hire a new tutor, as needed. Maintain or increase the number of hours for tutors available for the department and the discipline by using any hourly funds available to the department to hire students who can serve in two roles as tutor and general staff in the

WLRC.

### Outcome(s) expected (qualitative/quantitative)

Peer tutoring is one of the best ways that students learn and review material outside of the classroom. Not only is the material being presented in a different way but it is being presented by someone that will not be grading the students. The expected outcome is greater student retention and success rates in our courses.

# How does this goal align with your department mission statement, the college strategic plan, and /or Guided Pathways?

By providing well-trained tutors, the Chinese program will be able to provide students with a more effective and engaging teaching and learning environment and greater access to educational resources and learning support outside of the classroom. A tutor also gives students the opportunity to experience the cultures of Chinese-speaking countries from a different person than just the class instructor and broaden their horizon that way. Tutors also give the students a chance to explore the language and culture in a relaxed environment without the pressure of assessment.

### **Expected Goal Completion Date**

12/13/2019

# STAFFING AND RESOURCE NEEDS

### Instructions

- 1. Refer to Strategic Plan.
- 2. See Data.
- 3. See career info (In PRP)

Are you requesting additional full-time faculty? No

Are you requesting additional Staff, CAST or AA?

Yes

In the last ten years, what is the net change in number of Staff in the department? (loss vs. gain) Loss of one (1) full-time staff member in the World Languages Resource Center (WLRC).

# REQUEST FOR ADDITIONAL STAFF, CAST, AA

Staff, CAST, AA request 1

Title of Staff position you are requesting

Instructional Support Assistant I

# How will this Staff position help meet district (Guided Pathways, Strategic Enrollment Management etc.), department and/or discipline goals?

The goal is to keep the center open to serve students who are seeking instructional support and to simply have the doors open for students to complete the course requirements in the World Languages Resource Center (WLRC).

Is there a scarcity of qualified Part-Time Staff (for example: Specialized degree/experience, emerging/rapidly changing technology, high demand)

The is a scarcity of funds for hourly staff (we have never had a sufficient hourly budget since the loss of our FT staff) and there are college restrictions on the re-hiring of our most qualified and experienced hourly staff.

Are you requesting this position for accreditation, regulatory, legislative, health and safety requirements? Please explain.

No

## **Review**

### Chair Review

#### **Chair Comments**

I reviewed this PRP. The program data, policies, goals, and needs are clearly stated and align with the department's.

Chair NameChair Sign DateBeatrice Manneh10/28/2019

## **Dean Review**

Areas of Concern, if any:

Strengths and successes of the discipline as evidenced by the data and analysis:

Recommendations for improvement:	

### **IPC Review**

**Dean Name** 

### Strengths and successes of the discipline as evidenced by the data and analysis:

The creation of a Study Abroad program could be a huge boon to meeting the needs of students by attracting those students who do not wish to engage in the traditional semester-length college language course.

**Dean Sign Date** 

Retention and success rates are laudable.

Areas of Concern, if any:

There is a concern that 102 is not being regularly offered and so students that begin study of Chinese at Palomar have no opportunity to advance into 201, per the prereq requirement of passing 102 with a grade of 'C' listed in the Catalog.

There is a concern with the number of students required in each class, which limits the one on one instruction that is efficacious for language acquisition.

### **Recommendations for improvement:**

Hopefully administration can work with you on your tutoring needs to better meet the needs to your students.

Recommendation would be to explore offering these courses as non-credit.

Since the discipline believes the need for these courses are higher in the south, more effort should be made to offer these classes at the Rancho Bernardo Education Center.
