

Splashtop Remote Lab Access

Enabling Audio

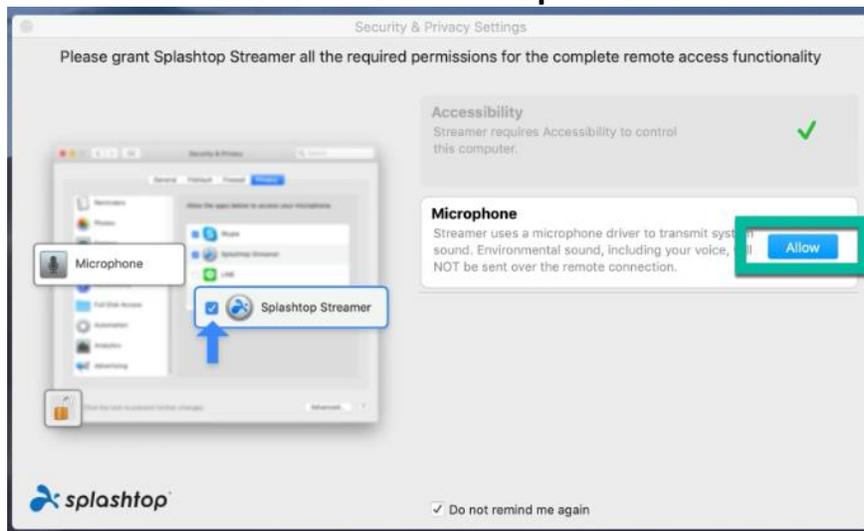

Run the Splashtop Streamer Application.

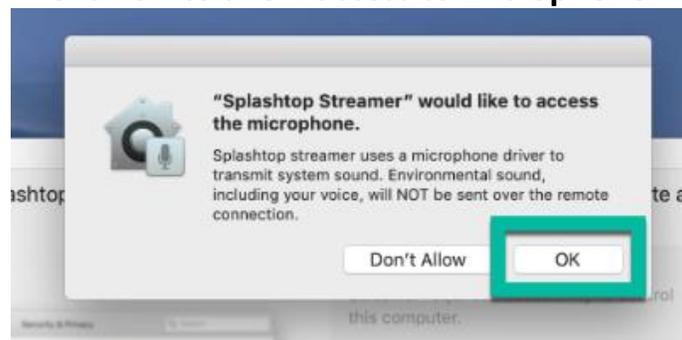

Click the Information button.

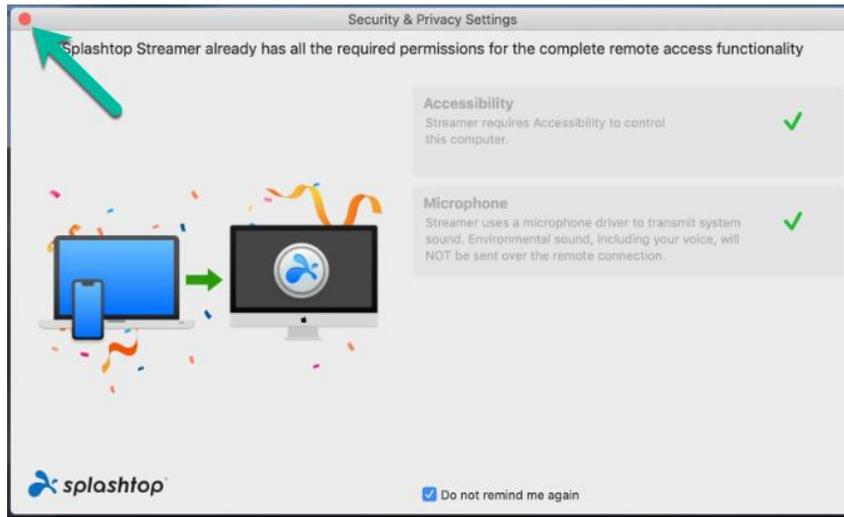

Click Allow - Microphone

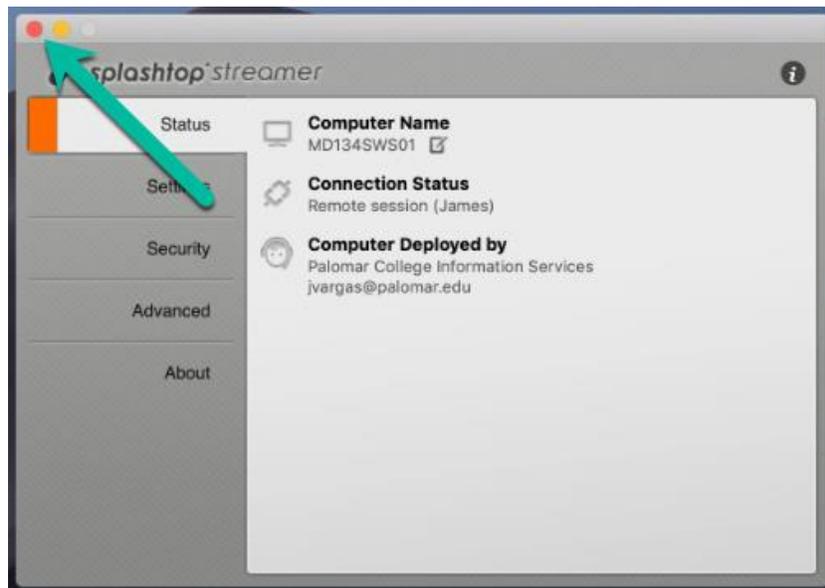

Click OK to allow access to microphone.

Close the window.

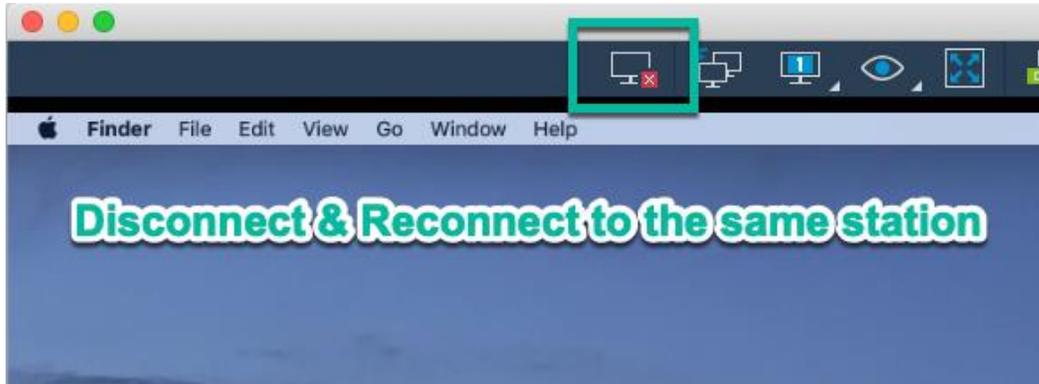

Close the window.

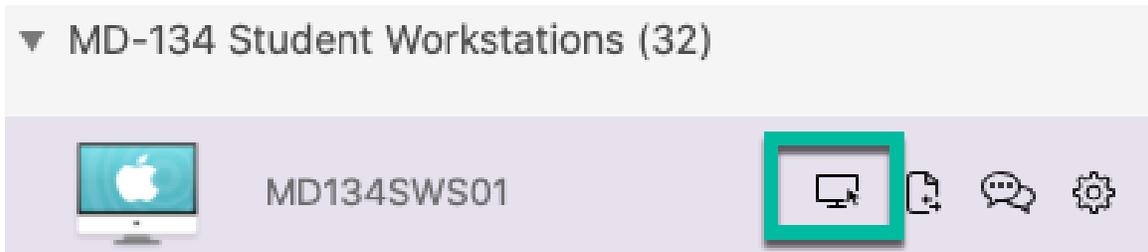

Everything up to this point only has to be done once.

The following steps have to be done each time you log in. If you are going to play audio you have to disconnect & reconnect to make the audio kick in.

Disconnect and reconnect to the same station.

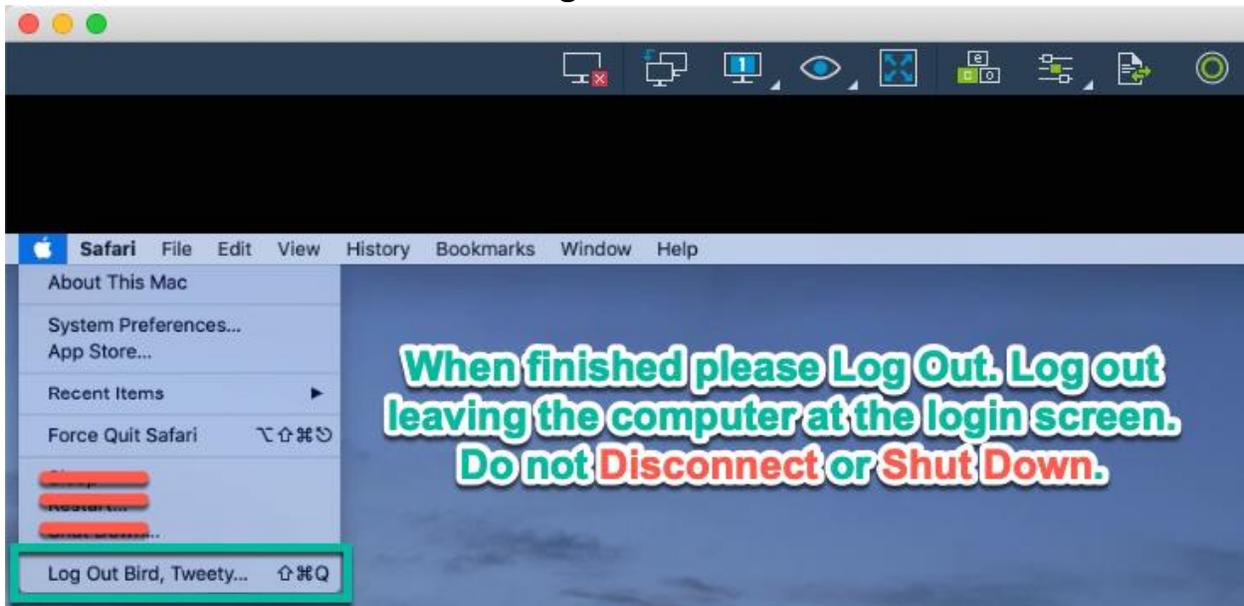

Reconnect to the same station.

Audio works now.

When you are finished Log Out of the computer leaving the computer at the Login Screen.

IMPORTANT: Do not save documents or files on the computer as they may be lost or accessible by other computer users. Please save all documents to your course network share drives or your MS 365 OneDrive.

If you have technical questions about connecting to the remote lab, contact the Palomar College Information Services Help Desk at helpdesk@palomar.edu or 760-744-1150 ext. 2140 or 760-891-7140. The IS Help Desk is available to assist you Monday through Friday from 8:00am to 5:00pm.
