FAQ

What is Bridge to College Math?

This **FREE** noncredit (no unit charge) program is designed to provide you support by building your math confidence and proficiency while enhancing your success in a transfer level math or stats class. We believe in you!

What is a typical online Bridge day?

You will work on your computer using an adaptive computer system.

Advancing through the prerequisite knowledge needed to be successful in the college level class. The instructor and/or a tutor will be available to help you using zoom (video meeting software used for remote learning), during 9am-1pm. You can always work ahead on your own, and email instructor outside of these hours.

Contact: LGuerrero@palomar.edu for more info.
