# NURSING STUDENTS WANTED!

Palomar Home Care

We seek motivated nursing students for our Home Care Aide positions. We have found Nursing Students to be a great fit for our program as you progress through your healthcare career.

Gain "hands on" experience working with patients in their home setting. This experience will help you to gain comfort and confidence working with patients.

We have had numerous Nursing Students who have worked in our Home Care Department and then successfully transitioned into Palomar's New Grad RN Program. An established track record with our Palomar Home Care Department will definitely set you apart and in front of others who apply to our RN New Grad Program.

So, why work in non-advancing positions while you are going to nursing school? Take advantage of your time spent working in our Palomar Home Care Division to help jump start your nursing career.

In addition, we understand your educational needs and will tailor your home care shift requirements around your RN school schedule. It's a win-win. Apply today.

We Are The ONLY Hospital Based Home Care Agency In All San Diego County

Testimonial

"I have had the opportunity to work with Palomar Home Care for the last 2 years. Palomar Home Care offered me a flexible schedule, and supported me through my entire nursing education. Once I graduated, my manager supported my nursing application and I was accepted into the Acute Cardiac Unit as an R.N. I am very grateful and invite you to join Palomar Home Care." — **Ehsan, RN, Palomar Medical Center Escondido**

Testimonial

"Working as a home care aide for Palomar helped me develop the foundation for skills I use as a registered nurse today. The hands-on experience with clients gave me an advantage in nursing school and allowed me to be more comfortable with patient care. When I applied for a position as a registered nurse, having the background as a caregiver and working for a well-known and trusted organization like Palomar helped me stand out among other applicants and get hired." — **Anessa, RN, Palomar Medical Center Poway**

PALOMAR HEALTH

Passion. People. Purpose.

Palomar Health is a California Public Healthcare District.

If you have questions, call: 442-281-3850
