

Good Afternoon,

My name is Michael Alvarado and I am the Human Resources Manager for the San Diego Sheriff's Department. The Sheriff's Department has over 170 Registered Nurses positions and over 50 Licensed Vocational Nurses positions. We are looking for newly graduated nurses who are interested in working for the Sheriff's Department. Our nurses work in our Detention Facilities from Southbay to Vista. We were recently awarded an additional 100 nursing positions and are looking for new graduates to fill these positions.

If possible we would love the opportunity to meet with your faculty as well as your students about the positions that are available with the Sheriff's Department. We have done some virtual sit-ins with different classes and would love to do the same. Below is the link for the 2 classifications that we are hiring.

In addition to the full-time positions, we are also hiring Student Intern (Workers) that can not only gain experience but also be compensated. We are hoping these Student Workers will be the future full-time Nurses and LVNs for the Sheriff's Department. The requirements for the position are the student must be a full time student, maintain a 2.0 GPA and be in the college or university nursing program. We hire all levels of students from Freshman to Seniors. The compensation ranges from \$13.65 - \$19.79 hourly. Their rate is determined on the number of Units they have completed. Below is the link for the Student Worker Nursing application.
