Time Commitment

For each unit of credit, students should plan to spend three hours per week between class time and study time. For example, a one-unit lecture class meets one hour per week, with an additional two hours per week of study time outside of class. A three-unit lecture class meets three hours per week, with an additional six hours per week of study time outside of class. The number of hours is prorated for short-term and summer classes. Remember to meet with a counselor who is prepared to guide you to your educational goal.

Noncredit Courses

Noncredit courses provide the community with life-long learning opportunities. Classes include English as a Second Language, health and safety, citizenship, and classes for persons with disabilities. In some programs, noncredit courses can assist students to transition to credit courses. Noncredit classes are taught by qualified instructors and are offered at the San Marcos campus, the Escondido Center, and locations throughout the community.

ENGLISH

Any student wishing to earn an A.A. degree must complete English 100 with a grade of 'C' or better. The student must participate in the English placement process before enrolling in any English or English as a Second Language composition class except ENG 10 and 150. The eligibility will indicate whether the student may enroll in ENG 50 or ENG 100. Students whose first language is not English may find, however, that ESL instruction meets their needs better than immediate enrollment in ENG 10 or 50. Such students may take one or more ESL classes (ESL 101, 102, 103) instead; then by again participating in the English placement process, they may qualify for ENG 50 or ENG 100. Nonresident international students may be required to take one or more classes of English as a Second Language. Students should sign up for English assessment as soon as possible because some students may take three or more semesters to finish the competence requirements in English. Contact the Assessment Center for the English assessment schedule, ext. 2476.

Students interested in a Directed Studies class should contact the Department.

Algebra $2^N 1$

Students enrolled in this program will accelerate from Math 50 to a college level class in one semester. This course is designed to condense a year of developmental math into a single semester. To enroll in this learning community, add Math 52A and Math 50 to the shopping cart. The Math Department will then add students to Math 60 on the first day of classes.

PSYCHOLOGY

Advisor: N. Schroer, nschroer@palomar.edu

For ALL psychology classes with prerequisites (PSYC 205, PSYC 210, PSYC 225, and PSYC 230):

The psychology department is now enforcing prerequisites for all psychology courses with prerequisites. If you took the prerequisite course at another institution, and have not updated your information with Palomar College, you may be blocked from enrollment or asked to provide transcripts verifying completion of that course on the first day of classes. Students not meeting the prerequisites will be dropped from the class.

For further information see this webpage:

Online (Internet) – (may require some meetings on campus) and Video Classes – (require some meetings on campus). Distance Education is an interactive instructional experience in which the learner and the instructor are in separate physical locations for the majority of the instructional activities. The various technologies used for delivery of instruction may include some combination of print, voice, video, and data delivered via the Internet or cable TV. Distance education classes are equivalent to traditional lecture-based classes with no distinction made on transcripts to indicate the class was taken via distance education.

Distance education courses may be an attractive option for students:

- whose work or family commitments do not allow them to attend classes on campus;
- who cannot commute to campus to take face-to-face courses;
- who are taking other classes on campus but wish to explore the flexibility that distance/ online education may provide.

Most **online** and **video** classes at Palomar College use the Blackboard Learning System®. Blackboard is a web-based course management system. It is an easy-to-use, menu-driven application. Students must be enrolled in a class to access its Blackboard website.

To access Blackboard, go to https://palomar.blackboard.com and log in. Instructors may use a combination of various delivery methods and sites for their courses that may or may not include Blackboard.

Online Classes

How It Works

Students must have reliable access to the Internet to take an online class. Online classes meet on the Internet using a web browser. Features of the web, such as discussion boards, email, computer-based tests, and file uploads/downloads will be used in most classes. Some classes may require face-to-face meetings on campus in order to take tests. Some online classes include video lectures.

For details on how individual online classes are taught, visit the website listed under each class in the schedule, or contact the instructor via email. Instructors' email addresses can be found in the online College Directory at:

http://www.palomar.edu/onlinedirectory/

Information Available Online

- Attend 5 to 7 campus meetings.

View Video Lessons

Students have several options to view the video lessons:

- · View online by logging into Blackboard.
- View webcast via Windows Media at: www.palomar-tv.com
- View on cable TV: Cox North-Ch. 16 and 19, Time Warner North-Ch. 16 and 24, and AT&T U-Verse Ch. 99.
- Channel Lineup for cable TV and webcast is at: www.palomar-tv.com

We at Palomar College celebrate differences and advocate the civil rights and safety of all members of our community. We do not tolerate hate on campus, and we condemn in the strongest possible terms the abuse of those who are lesbians, gay, bisexual, transgender or questioning.

We are committed, in compliance with the guidelines of AB 537 and all applicable state and federal
laws, to create a safe, secure environment where

Enrollment (Registration)

Qualifying for Enrollment

Palomar College has a fully automated registration system. Students may apply and enroll online. To be eligible to enroll, students must have a current application on file. Returning students who have missed one semester must re-apply in order to receive an enrollment appointment. Continuing students who were enrolled in spring, new students, and returning students who submit an application for fall by May 12 will receive a priority online enrollment appointment.

After May 12, apply online to receive a late enrollment appointment or access to the system for the open enrollment period that follows.

User ID and Password

Once your application is processed, you will be issued a unique Palomar User ID number. To enroll, you will use your User ID number and a password. Your password can be up to 15 characters long. Note: If you forget your Palomar User ID and or password, click on the link, Forgot my Student ID or Password, located to the right of the ID input box on the eServices sign in page. Follow the online instructions to retrieve your ID and set a new password. For your added protection, you will be asked to choose a challenge question and provide a response. If you forget the response, visit Admissions with a picture ID to have your challenge question reset.

Enrollment Appointment

All class enrollments are processed online using Student Center. Don't worry if you miss your online appointment, you may enroll anytime after your scheduled appointment. For instructions see the Admissions web page at www.palomar.edu/admissions/. The automated system operating hours are: Monday through Saturday, 6 a.m. to 1 I p.m., and Sunday, 6 a.m. to 4 p.m. Call the Admissions Office at 760-744-1150, ext. 2164. If you have any questions email admissions@palomar.edu.

Repeating a Course

Recent updates to Title 5 regulations have changed the number of allowable course repeats (T5, 55040-55046). Effective January 1, 2013, the maximum number of enrollments, including withdrawals (W's), for regular courses will be limited to **three**. All enrollments, including W grades, prior to January 2013 will be included in the count.

A student who receives a satisfactory grade (A, B, C, P, CR) in a credit course cannot enroll again in that course except in very limited circumstances. A student who receives an unsatisfactory grade (D, F, FW, NP, NC) or withdrawal (W) on the initial enrollment is permitted to enroll again in the course. When repeating courses due to withdrawal or unsatisfactory grades, students are limited to the original enrollment plus two subsequent enrollments.

Only three types of courses are repeatable:

- Where repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor's degree
- Intercollegiate athletic courses (includes related conditioning courses)
- Intercollegiate academic or vocational competition

Please consult the college catalog for more specific information on the repetition of courses.

The Enrollment Priority System

Recent updates to legislation governing the California Community Colleges have resulted in a new enrollment priority system. These changes are designed to reward students for behavior that will help them succeed in their studies and complete their certificate, degree, or transfer program in a timely manner. Students will be assigned registration appointments in the following priority scheme:

Group 1. Disability Resource Center (DRC), EOP&S, foster youth, CalWORKS, eligible veterans, and active duty military personnel who submit an application and complete assessment, orientation and development of an education plan prior to the deadline date. Appointments are assigned by descending unit order starting at 90 earned units completed at Palomar College.

Group 2. Students in their last term of attendance prior to graduation or transfer. Appointments are assigned by descending order for all earned units completed at Palomar College.

Group 3. New, returning, transfer, and continuing students who complete orientation, assessment and development of an education plan in the immediate period of time prior to the deadline date, usually the first day of class for the preceding full academic term. Appointments are assigned by descending unit order starting a 90 earned units completed at Palomar College.

Group 4. Student participating in approved special programs. Appointments are assigned by descending unit order starting at 90 earned units completed at Palomar College.

Group 5. Continuing students who are actively registered at census the prior semester or actively registered in a course as of the deadline date. Appointments are assigned by descending unit order starting at 90 earned units completed at Palomar College.

Group 6. New, returning, or transfer students who are not in Group 3. Appointments are assigned by descending unit order starting at 90 earned units completed at Palomar College.

Group 7. Returning or continuing students with 90 or more earned units completed at Palomar College and/or students who have been on Academic or Progress Probation for two or more consecutive terms. Appointments are assigned by ascending unit order for all earned units completed at Palomar College.

Group 8. Non-high school graduates age 16 to 18. Students less than 16 years of age require permission of the instructor to enroll in classes.

ADDING A COURSE

To add courses to your schedule, use the **Add/Drop Classes link** from Student Center. You must obtain a permission number from the faculty member after the first week or if you are waitlisted or if the class is closed.

DROPPING A COURSE

To drop a class, select the **Add/Drop Classes** link in Student Center. All students are expected to attend classes. Failure to attend class can result in an F or FW grade, unless the student processes a drop before the W deadline.

PASS/NO PASS

Complete the P/NP grading form and return it to the Admissions Office within the first 30 percent of the course. **No faculty signature needed.** However, students are advised that four-year schools may limit the number of P units acceptable for transfer. Major preparatory classes should never be taken on a P/NP basis. ENG 100, 202 and 203 may not be taken as P/NP. In most cases, courses numbered below 100 are ideally suited for the P/NP option. Please see a counselor to find out how this option may affect your educational goals. The change of grading status is not reversible.

AUDITING A COURSE

Complete an application for audit, obtain signatures of the faculty member, department chair, and Dean, and return form to the Admissions Office or an Education Center. Audit enrollments are not allowed before the first class meeting. Students who enroll for credit have priority over auditors, and **not all classes are available for auditing.** If changing from credit to audit status after the refund deadline, no enrollment fees will be refunded and the \$15 per unit audit fee will be charged in addition to the enrollment fees. The change from credit to audit status is not reversible. There is no deadline for original registration under audit status.

WAIT LISTS

Before the beginning of the semester, if a class is closed, you may place your name on a wait list (if available). If a seat becomes available, you will automatically be added and your student account will be charged with the enrollment fees. Please check your schedule online to confirm your status. See the last day to wait list in the chart above.

PERMISSION NUMBERS

- Are numbers that are assigned to students by faculty to authorize enrollment in a class that is closed.
- Are different from class numbers.
- EXPIRE after the above add deadline dates

DO NOT DELAY in adding your class with your permissionnumber. After the add deadline, you will not be allowed to add a semester-length class.

GRADES & SCHEDULES

Summer 2016 grades will be available beginning five business days after the last date of the course.

You may access your semester grades and student schedules online using Student eServices at www.palomar.edu. You may use a computer in the Admissions lobby, Career Center, or Library to access the Palomar College home page. Look for the eServices link.

However, the college may never suspend or terminate any service for which a student is otherwise entitled under any other provision of law. In addition, students may challenge any matriculation requirement or regulation using the petition process.

Enrollment restrictions:

Many courses and education programs of study have enrollment conditions such as prerequisites, corequisites or advisories on recommended preparation. These faculty-approved conditions are considered necessary and appropriate to ensure that you are adequately prepared to succeed in the course or education program. It is your responsibility to meet any and all enrollment conditions.

Advisory on Recommended Preparation:

Recommended preparation is a condition of enrollment that you are advised, but not required, to meet before or in conjunction with enrollment in a course or education program. If you believe that you have satisfied the advisory by means other than the stated advisory, please consult with the appropriate department to determine your readiness to enroll in the course or educational program.

Other Limits on Enrollment:

Enrollment in certain courses or educational programs of study may require tryouts, auditions or may be limited by health and safety considerations, facility limitations, faculty workload, the availability of qualified instructors, funding limitations or legal requirements imposed by statutes, regulations or contracts. All such limitations are in conformity with the provisions of Title 5, Section 58106, California Community College Board of Governors.

Prerequisites:

A prerequisite is a condition of enrollment that you are required to meet in order to demonstrate current readiness in a course or education program. You may be required to show proof of meeting the prerequisite. Failure to meet the stated prerequisite may result in being administratively dropped from the course.

Corequisites:

A corequisite is a condition of enrollment consisting of a course that you are required to simultaneously take in order to enroll in another course. Failure to enroll in the stated corequisite will result in being administratively dropped from the course.

You may not be permitted to enroll in a class for which you cannot demonstrate that you have met the prerequisite or are enrolled in the corequisite. If it is determined after a course begins that you have not met the prerequisite, you may be dropped from the course.

If you are currently enrolled in a prerequisite course at Palomar College, you will be permitted to enroll in the next level course on the assumption that you will pass the prerequisite course with a C or better. If you do not successfully pass the course (receive a grade of D, F, FW, NC, I, or W) you will be dropped from the next level class.

Challenging a Prerequisite:

You have the right to challenge any prerequisite.

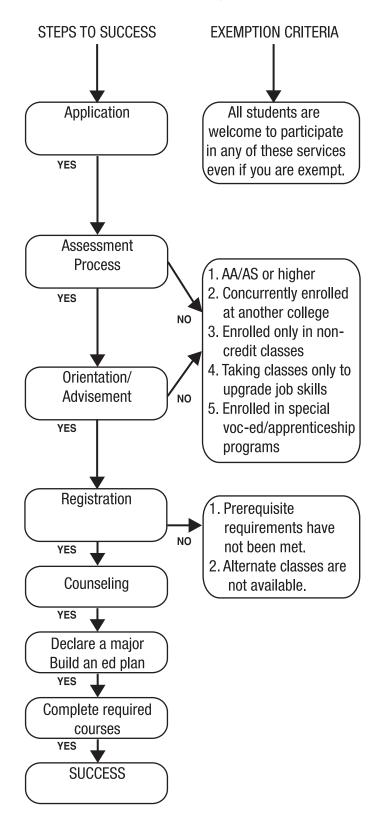

A prerequisite or corequisite challenge requires written documentation, explanation of alternative course work, background, abilities, or other evidence showing adequate preparation for the target course. A Prerequisite or Corequisite Challenge Petition can be obtained from the Admissions Office, in the Counseling Center, or at a College Center office. Reasons for seeking a Prerequisite and Corequisite Challenge Petition may include one or more of the following:

- (I) A prerequisite or corequisite has not been made reasonably available.
- (2) A prerequisite or corequisite has not been established in accordance with the District's process for establishing prerequisites and corequisites.
- (3) A student can provide evidence of having the knowledge or ability needed to succeed in the course despite not meeting the prerequisite or corequisite.
- (4) A student may challenge other limitations on enrollment.
- (5) A student may challenge a prerequisite or corequisite established to protect the health and safety of himself, herself, and/or others.
- **(6)** A prerequisite, corequisite or limitation on enrollment is discriminatory or applied in a discriminatory manner.
- (7) A prerequisite or corequisite is in violation of Title 5.

If space is available in the target course when a student files a challenge to the prerequisite or corequisite, the College shall reserve a seat for the student and resolve the challenge within five working days. If the challenge is upheld or the College fails to resolve the challenge within the five working day period, the student shall be allowed to enroll in the course. If no space is available in the course when a challenge is filed, the challenge shall be resolved prior to the beginning of registration for the next term and, if the challenge is upheld, the student shall be permitted to enroll if space is available when the student registers for that subsequent term.

Student Grievance Policy BP5530

POLICY: Students may initiate grievance procedures when they believe they have been subject to unjust action or the denial of rights as stipulated in published District policies/procedures, state laws, or federal laws. Such action may be instituted by a student against another student, a staff member, a faculty member, or an administrator. When a student believes an injustice has been done, the student may seek redress as outlined in the Student Grievance Procedures. Any questions or concerns related to this policy should be directed to the Director of Student Affairs, Room SU-201. Phone: 760-744-1150 ext. 2595.

Grade disputes are not a part of the Student Grievance. Please see Student Grade Disputes.

Student Rights and Grievances AP5530

PROCEDURE: Before initiating formal grievance procedures, you should first attempt to resolve your concern informally by meeting with the specific individual involved, that is, the other student, the professor, staff member, or administrator. If you believe the situation is such that meeting with the individual would be inappropriate, or you already met with the other person and failed to resolve the issue, you may proceed to the second step which is to meet with the next level supervisor. If dispute is not satisfactorily resolved through the informal resolution process, the student may submit a formal grievance to the Director of Student Affairs. Appointments with the Director of Student Affairs may be scheduled in the Office of Student Affairs or by calling 760-744-1150, ext. 2595.

Student Grade Disputes

According to Title V, §55025, the determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency. Students who wish to dispute a final course grade under the criteria listed above must follow the Student Grade Dispute Policy and Procedures, which can be found on the Office of Instruction Web site. All grade disputes must be initiated within one semester of the grade in question being issued.

Academic Freedom

The instructional program at Palomar College shall be conducted in accordance with principles of academic freedom of inquiry. The educational program must encourage freedom of expression and freedom of inquiry within the framework of responsibility.

Palomar College considers academic freedom, defined by its attendant rights and responsibilities, as a vital, primary force in the achievement of the aims and objectives of the institution. Academic freedom involves inherently the following rights and responsibilities:

- To research to the limit of competence and training, the assigned teaching area and its references
- To survey, probe, and question the relationship of humans to their environment within the guidelines of research techniques and intelligent discussion

- To question and challenge, without fear of censorship or discipline, those actions originating from within the institution which seriously affect the total academic environment
- To introduce, within the assigned teaching area, controversial concepts, issues, and systems, subjecting these ideas to the test of objective reasoning
- To create an unhampered and clear intellectual atmosphere democratically maintained, encouraged, and supported by students, staff, administration, and members of the Governing Board
- To associate with those individuals or groups of one's choice without fear of censorship or discipline, unless such association is forbidden by law

At no time will the inherent right of staff to use any of the normal channels of campus communication be abridged, nor will individual staff members be singled out for special prior censorship of their use of such channels of communication. It is understood that staff members exercising this right will accept responsibility for both the substance and the manner of their messages.

The college or university teacher is a citizen, a member of a learned profession, and an officer of an educational institution. When he/she speaks or writes as a citizen, he/she should be free from institutional censorship or discipline, but his/her special position in the community imposes special obligations. As a person of learning and an educational officer, he/she should remember that the public may judge his/her profession and institution by his/her utterances. Therefore, he/she should at all times be accurate, show respect for the opinions of others, and make every effort to indicate that he/she is not an institutional spokesperson.

Intersegmental General Education Transfer Curriculum (IGETC)

The following list of IGETC (Intersegmental General Education Transfer Curriculum) courses fulfill lower-division general education requirements for transfer to a California State University (CSU) or University of California (UC) campus. Completion and certification of IGETC courses will meet lower-division general education requirements at most transfer institutions.

If considering a private college or university, the IGETC plan may still apply as most private schools require a similar core of lower division course work. Check with a counselor to determine if the IGETC pattern is accepted at the private or out of state institution being considered.

Some of the course requirements listed below may be fulfilled through Advanced Placement exams or courses from other colleges. A STEM major or other high unit major should consult with a counselor to determine if IGETC is the best plan to follow.

- Kinesiology (KINE) Music (MUS) Theatre Arts (TA)
- * Courses with related content are clusters of courses that limit enrollment to four attempts for the group including completions, withdrawals, and incompletes. These courses are most often separated by skill level or variation. Groupings of courses with related content are detailed at: http://www.palomar.edu

Course Repetition Changes - Due to changes in the regulations that govern California Community Colleges, limits have been placed on the number of times you may enroll in a course.
