Palomar College's Associated Student Government is a proud ally for antiracism and student equity. As a student government organization, we have the privilege of representing thousands of students on campus that come from all different backgrounds. It's our responsibility to make sure that each and every student feels like they belong and are included in Palomar's narrative. This is not limited based on a student's race, sexuality, gender identity, family income, prior background, and other factors. We believe each student has the power to succeed at Palomar, and we want to help provide the resources to ensure that. Equity is the matter of making sure representation is proportional, and that equality is the end goal. Systemically speaking, those who are Black, Indigenous, people of color, women, or queer are underrepresented and have had it harder in this nation. By uplifting their voices, we are still in full support of all other student demographics on campus and wish success at this school to all. In the wise words of Martin Luther King Jr., "Darkness cannot drive out darkness; only light can do that. Hate cannot drive out hate; only love can do that." By showing love and compassion to underrepresented students on campus, our goal is to make this college more inclusive, and to drive out prejudice, racism, homophobia, and sexism, and stand true in an end goal of "equality for all".
