- Because entries in *Merriam-Webster's Dictionary* are updated over time and are not archived, include a retrieval date in the reference.
- Merriam-Webster is both the author and the publisher, so the name appears in the author element only to avoid repetition.
- To quote a dictionary definition, here is an example:

Culture refers to the "customary beliefs, social forms, and material traits of a racial, religious, or social group" (Merriam-Webster, n.d., Definition 1a).

Use the name of the account that uploaded the video as the author.

• If the account did not actually create the work, explain this in the text if it is important for readers to know. However, if that would mean citing a source that appears unauthoritative, you might also look for the author's YouTube channel, official website, or other social media to see whether the same video is available elsewhere.
