This is your indication that, to the best of your knowledge, you are eligible for the above benefit and that you intend to use the benefit for this semester. If you decide to not use this benefit for this term, it is your responsibility to notify the Veterans Office. If you do not use the benefit, you will be subject to the decoding of your account.

## Please read and initial the following:

\_\_\_\_\_ Your enrollment fees are due when you register in classes. Depending on when you enroll in classes, you may be dropped within 10 days of your registration if fees are not paid for all benefits **EXCEPT** students using Post 9/11 GI Bill benefits and Vocational Rehabilitation (**HOWEVER** without this coding and completing this form you will be dropped 10 days after enrolling in classes if fees are not paid).

\_\_\_\_\_ Once I have used my VA Education benefits, if I do not certify for two semesters it will result in the deactivation of my coding. This means your enrollment fees are due when you register in classes. Depending on when you enroll in classes, you may be dropped within 10 days of your registration if fees are not paid. To reestablish my coding I will need to fill this request out again with the Palomar Veterans Services Office.

\_\_\_\_\_ I will be responsible for paying Palomar College for any and all tuition and fees not covered by my VA education benefits (to include out of state tuition and fees). Failure to do so may result in enrollment blocking, inability to request official transcripts, and eventually my balance could be transferred to collections. In addition, if I have any past due tuition and or fees, I will be unable to request future VA certifications at Palomar College.

\_\_\_\_\_ I understand this request does not start my file for VA education benefits. This form is only to activate my coding as a recipient of VA benefits at Palomar College. To start my benefits, I must complete the New Student Checklist provided by Palomar College VSO as well as additional paperwork required at the time of certification.
