**Veterans Services**  
**Petition for Hybrid/Residence Reported Course**

**Purpose:** Effective for all terms beginning on or after August 15, 2019, the VA will allow for hybrid courses (all courses that combine classroom instruction and distance learning) to be certified as in-residence training. Many of the hybrid courses will be updated automatically to show as VA in-residence. This petition is for hybrid classes that are still being reported as distance education in which the student has supporting documentation that the course should be certified to the VA is in-residence.

**4. Student Acknowledgment:**

I understand that I will need to submit the completed petition and all supporting documentation to be considered or my course will remain reported as online to the VA. Each course will be considered separately and all final decisions will be made by the State Approving Agency and the VA. Failure to complete petition, denial of petition, and/or denial by the SAA or VA can result in a change in the amount of housing allowance paid to CH 33 and CH 31 applicants. I understand that any change in pay will be determined at the VA Regional Office and not Palomar College Veterans Resource Center.
